## Washington County's Best On Exhibit At First County Fair; Amusements Good

### CANNERY ENJOYS ACTIVE SEASON

Fruit Association's Enterprise Proves A Needed Industry

"The Forest Grove Fruit Association," said Mr. Correll, "is an industry which effects either directly or indirectly every person in Forest Grove, and many people throughout the county. There are nearly two hundred members in the Association, and many others in view."

"The fruit and vegetables which we use are grown by the members and marketed by the Association. By working in this manner the market is never flooded with any one commodity, and good prices are assured."

"The cannery employs as many as fifty workmen during the harvest season, and in this way a great deal of money is kept in the county. Last month the labor bill was \$1,128. It sometimes goes over \$100 per day."

"Our first run on loganberries ran over 40,000 pounds, for which a ready market was found right here on the Coast. In this fruit alone we predict a great future in the Valley, not only for the large ranches but for the small farmer. The prices paid for the berries were highly satisfactory to the growers."

"Cherries have not all been marketed, for the reason that there are not enough of any one variety to make a carload. But this also is a coming product."

Fifty-five tons of pears have been taken in by the cannery. One carload has been shipped to Portland and one to Seattle. Two carloads of apples are being canned, and orders for more have been refused on account of lack of fruit. Apples and squash are now being canned.

"There is one thing in particular of which we are proud, and that is that all of our fruit has been graded one rate higher by the buyer than was quoted by the Association. This shows that we have started right and insures us a ready market for the future."

"Although we are not yet prepared to give figures in regard to the year's work it has already exceeded all expectations. Our buildings must be enlarged before another season. We believe in a future for the county and its with other business men and manufacturers for the advancement of Washington County."

Following is a list of officers of the Association: H. C. Atwell, president; H. Correll, vice-president; Ives J. Hoar, secretary; Robert Alexander, treasurer; A. B. Craft, A. Dilley, Grant Bailey, J. E. Lewton, B. Orman, directors.

### COUNTY COURT

Geo. Emmerson et al. road petition from Road District No. 583 read first time and continued to October 4 for second reading.

In Gales Creek precinct, Sargent's Hall was designated as the polling place for election.

The report of Recorder E. L. Perkins was approved.

The report of County Clerk Edward Luce was approved.

Petitions of cities of Hillsboro and Sherwood for local option; election ordered November 4.

Ordered \$450 transferred to Road District No. 28 from county road fund.

Marriage licenses for the past week were as follows:

Wm. Martin Easley, 31; Mary Freerksen, 23.

Warren E. Hill, 60; Mrs. Ella Hannan, 50; from Buxton district; were married October 6th by C. H. Baldwin, of the Buxton Church.

Fred David Hagg, 25; Mildred Fay Kirkwood, 23; married at Reedville on the 6th inst. by Pastor R. Welch.

Edwin Sparks, formerly of Forest Grove; Frances M. Hirbel, a teacher of Forest Grove. Mr. Sparks is now with the Hillsboro Independent.

Thomas W. Gragg, 26; Henrietta W. Gregg, 20.

### FERRIN GOES TO NEW YORK

President W. N. Ferrin

Former President W. N. Ferrin, who recently resigned as the head of Pacific University and was succeeded by President Bushnell, has gone to New York City, where he will take charge of the chemical laboratory of one of the biggest rubber houses in the United States, a position that has been offered him several times, and which he finally accepted. The position carries a better salary than any place Mr. Ferrin ever held. Charles Bradley, a graduate of the University, and Professor Whittles-y, one of the former instructors here, are already members of the chemical staff of the same house, and will be on Professor Ferrin's staff.

### FOREST GROVE BAND IS ORGANIZED

Thru the hard work of Samuel Glenn Morgan of Pacific University, Forest Grove may now boast for a real first class band. At various times in the past a band has done thorough work in this city and no one will fail to recognize the important place which such an organization will hold in the community life. There seems ample reason to believe that this band will exceed any which has played in Forest Grove in years. The first thing of importance in the forming of a band is the instrumentation, which should be well balanced and reasonably large. The next point for consideration is that of a leader, and finally the question of music and good instruments, must be settled.

Every instrument essential to an A-number-one band, will be played in this organization. The membership for the winter will be between twenty and thirty. At a recent meeting, Mr. Morgan, of P. U. '17, a man to whom much gratitude is due for his efforts toward the organizing of the band, was unanimously elected business manager.

Mr. Enoch Moore has been secured to lead and to instruct the musicians. Mr. Moore is an old band man and had much experience in leadership before coming to this state. No more practical selection could have been made, and every member promises to support the leader in every way possible. No remuneration in terms of salary which the members and friends will furnish, can adequately express what is due a leader of such rare ability and practical experience.

As a usual thing a band finds itself with a few instruments that are not of a late model. The musicians will aid one another in every way in securing of instruments of new models. It is hoped that thru the aid of friends several new instruments ranging in price from fifty to one hundred forty dollars may be purchased. This will mean effort, and the kind of effort that should be cooperated with.

Night after night thru the winter months this organization will meet for earnest work, which in a comparatively short time will show results. Altho by no means in shape, the band has accepted the invitation of the County Fair managers to furnish music for the county this week.

The New Band is composed of High school and University students and others and urges the assistance of all especially during the formative period of its organization.

### Old Deed Recorded

The Deputy County Recorder of Washington County calls attention to a deed made out in the early 50's and kept in good shape and brought in to be recorded at this late date. Such an instance occurred on the 2d inst. The transfer concerned 160 acres of land adjoining the Wm. Doblehower land claim, better known as the Landle's claim, and was made by Michael Pedler to John McKernan. It calls attention to the Oregon Territory is witnessed by Thos. Humphreys and John Vinson, and acknowledged by Thos. Humphreys as Justice of the Peace. Accompanying the deed is an affidavit showing Mr. Pedler's home to be Portland, Oregon, and that at the time of execution of said deed, January 25, 1859, he was a single man.

### Parlette is Good

Last evening a large and attentive audience assembled in Marsh Hall to hear Ralph Parlette, the humorous philosopher, who gave the first lecture in a series of lectures planned for the coming winter season by the Forest Grove High school and Pacific University. He was indeed rightfully named when called the "Humorous Philosopher," for his lecture was full of wit as well as the practical side of life. In part he said, "we are all in the college of needless knocks," the school which has no books but bumps. As Mr. Parlette put it, "we are only apples in the barrel of existence and must struggle if we would rise to the top."

### There Is Only One Right Policy

From the standpoint of building up our state and developing its business and industries, there is only one right policy to pursue. That is for the citizen and corporations and public officials to buy from the home merchant and from the home manufacturer.

To force the retailer and jobber and manufacturer to compete with the whole world is frequently only a sure-thing plan to drive them out of business.

Everything possible that is needed here and can be had at anywhere near the price offered at from other sources should be bought at home.

It is good business policy, even though the price is a little higher and the quality not quite as perfect as the "imported" article.

Those who buy abroad, whether it be building material, clothing or food, are not working for the best interests of the community where they make a living.

A city council, school, county or state official that will split hairs and let a labor-employing, tax-paying business man go to the wall is acting short-sighted.

The home merchant and the home industry are deserving of better treatment, and their success is shared by every citizen.

This policy is right policy and is advocated in Oregon by the Oregon manufacturer and is producing greater prosperity.—Oregon Manufacturer.

The PRESS wishes to include the Oregon Farmer and his products.

Photo by American Press Association. Colonel George W. Goethals.

This is the man that made the dirt fly at Panama. Beginning with this issue the PRESS will tell the complete story of the "Americans in Panama." Do not fail to read the first chapters in this issue and to take advantage of one of the coupons on the back page to get the future installments which will continue about two months. We wish to call attention to the tariff schedule that is printed in this issue. Next week we will have an authoritative article on the new Income tax.

### CIRCUIT COURT

Katherine M. Cooper asks for divorce from Wilmer S. Cooper; five boys result of the marriage. The plaintiff charges many pages of complaints and recitations, principally those of drunkenness, profane language, and having concealed weapons, and making many threats and endeavoring to carry them out. These and many other reasons the plaintiff asks for separation papers, a certain amount of money as alimony and the custody of the children.

R. M. Wade & Co. vs. W. W. Ireland. An action for money aggregating about \$75 and costs and \$35 attorney fees.

Suburban Development Co. vs. Fred Brakebush, action for money. Plaintiff alleges failing to comply with a certain agreement and good faith in contract, covering or involving 4,668 acres of land and \$466.80 principal and interest.

E. J. Boos vs. George Chapman and wife, action for money and asking judgment amounting to \$100 as per lease or rental money from October 1, 1913.

Ida B. Duke vs. J. H. Duke, divorce. Married April 23, 1911, and complains of inhuman treatment, threats, and being dirty and failing to care for his appearance. Plaintiff recites that during their married life the defendant only took two baths. For this and other reasons she is asking for separation papers.

Nottingham & Co. vs. W. F. Desinger & Son, action for money amounting to \$283.67 and interest, and involves the N. 1/2 of the S. 1/2 of Sec. 24, T. 2 S., R. 1 W., about 12 acres.

Henry Saffron vs. John Nyberg, restraining plaintiff from using explosives and blasting powder, causing much worry and risk to defendant, and is asking plaintiff to blasting and using said quarry, which is adjacent to defendant's property.

Mary Georgia Henderling vs. Henry Henderling, divorce. Parties were married at Burke, Idaho, August 2, 1905. There are two children issue of said marriage, aged six and seven years, respectively. Plaintiff charges cruelty and inhuman treatment, profane language and failure to support. She asks for one-half interest in the property in Idaho, being 42.30 acres of land, and also asks for household goods amounting to \$75, the custody of the children, temporary alimony of \$290 and permanent alimony in the sum of \$50 per month.

John E. Cronan vs. H. R. Emmott, action for money on note amounting to \$550 and interest.

Jessie Norton vs. Albert Norton, divorce. Married in Portland, Oregon,

### LARGE CROWD IS INDICATED

Fair Weather For Fair Is Answer of Many Prayers

### FAST RACES EVERY DAY

Friday School Day, Saturday will be Hillsboro Day--All Days Good

Fair weather ushered in the first annual Washington County Fair this morning. Old Sol smiled with pleasure on the completed preparations, and this morning's attendance indicates that over 15,000 will be admitted to see the best fair ever held in this county.

Some of the fastest horses in the Northwest will appear each day on the track. The horses and their owners have been arriving all week. The animals are in the pink of condition.

### Agricultural Display Simply Fine

In the agricultural department the exhibits simply surpass description; potatoes so large that they are taken for prize pumpkins, and for the pumpkins, well—. The exhibits come from all parts of the county, and the "Cream of Willamette" has certainly been well separated.

### Many Cattle and Hogs

The livestock display is also of A No. One class. Especially in the milch cow and "pork" divisions will the judges be taxed to pick the best from the many good ones. The horses and sheep are well worthy the attention of all visitors.

### Poultry Show Unusual

Altho the season of the year is against the best possible showing of poultry, no one would know it to see the Washington County Poultry Association's tent, or rather the feathered creatures inside. The Association's contribution to the Fair is certainly a worthy attraction.

### Needle Work and Cookery

"Hands off" is certainly a proper caution for the visitors to the cookery department. Biscuits and butter like mother makes at home, jelly made from pure fruit juice, and one hundred and one other goodies, forcibly speak of the character of the home managers of this county. The needle work display is very pretty, and from a man's standpoint very unique.

### Eugenics Department Popular

In the eugenics department the exhibits did not arrive until this morning. However, the judges began their examination on time and undoubtedly a large share of the coming generation of Washington County's citizens will receive better care due to this valuable feature of the Fair.

Friday is Public School Day, and the Forest Grove Band, composed largely of High School and Pacific University students, will head the procession, in which several thousand children are expected to participate.

The juvenile exhibits will be judged on this day and undoubtedly will prove one of the most closely contested honors of the Fair.

### Whistles and Cannon at Noon

Due to the blowing of the last obstruction of the waters of the seas from the Panama Canal, every thing and person capable of making a noise Continued on page Nine

January 2, 1907, there being one child, a boy about five years old. She asks for the custody of said child and the payment of \$75 as expenses or fees.

Fay Agnes Walker vs. Percy R. Walker, divorce. Married defendant in Portland, Oregon, October 7, 1908. She charges desertion and asks for the privilege of using her former name of Fay Agnes Harrison.
