Notice to the Electors of the City of Forest Grove

Chapter 323, of the General Laws of the State of Oregon for 1913, provide for a system of registration of electors of the State, and the Act provides for registration in municipalities similar to the City of Forest Grove, as follows:

"In all municipal corporations of this State, whose boundaries are not coterminous with an election precinct or group of precincts, electors shall be registered for elections therein in the manner required by this Act for non-municipal elections, but the duties required by this Act to be performed by county clerks shall in that case be performed by the clerks or city recorders or other officers performing the duties usually performed by such officers, and all electors within any such municipal corporation shall register for municipal elections before such officer. Registration of electors in such last mentioned municipalities for municipal elections shall be distinct from registration for other elections and in addition thereto."

It will therefore be necessary for all electors of the City of Forest Grove to register before the Recorder for the coming city elections.
