Truly an Ideal Autumn—"What is so rare as a day in June," but why not apply that right now to a day in October when the sun smiles down on us with the brightness of a June day. And what can be more beautiful than the woods with the colorings and shades which no brush can reproduce except the hand and brush of the Almighty. Let us not grumble and look for bad weather but enjoy this sunshine while we may.

More Trout—Owing to the efforts of Willis Goff and Edward Boose, a car load of trout was received from the authorities, on October the 2d. Half of the fish were put into West Dairy Creek and the rest into Gales and Clear Creeks. Bird Goes to Court For Protection—A splendid specimen of China pheasant, which some call a Reaves pheasant sat comfortably on the highest part of the Court House roof all afternoon Monday the 20inst. This is unusual and more than one of those who passed wished they might have permission to try their aim, and later the fine meat of this game bird. It probably feared that wandering about in the adjacent fields, some of the many hunters who shoot promiscuously might mar his splendid plumage. So he betook himself to a place of safety, "Over" the law.
