Council meets in special session Tuesday next.

**Two Men Killed; Duel Indicated.**

Prineville.—Evidently the victims of a rifle duel between themselves, the bodies of Felix Jones and Roscoe Brown were found at a remote spot on Grizzly mountain, near the sawmill of J. W. Jones, father of Brown's wife. The opinion is general that the fatal fight was due to Brown's jealousy for his wife.

The bodies were lying 36 feet apart. Jones had been shot through the back, while Brown had been shot through the chest. Each still clasped his rifle in his hands when found, indicating almost instant death in the case of each.

**Breeding For Mutton.**

Pendleton.—Sheepmen of Umatilla county are in the midst of their breeding season and reports from their camps indicate that many are changing from the fine wool breeds to the coarser, and that a number are also breeding for early or winter lambs. There seems to be a growing tendency among local flockmasters to pay more attention to the growing of mutton, their reason being the high prices of meat, and the change which the tariff has made in the wool market.

**TAXABLE PROPERTY JUMPS**

County Boards Place Oregon Valuations at \$813,268,527 for 1913.

Salem.—The total value of taxable property as equalized by the county boards of equalization in Oregon, not including the property of public service corporations which will be assessed by the state tax commission for 1913 is \$835,268,527, according to an announcement of the commission.

The increase over 1912 is \$42,173,246. Messrs. Eaton and Galloway, state tax commissioners, said the levy which would be made December 1 would be about 5 mills, a large increase being necessary to meet the appropriations and other expenses of the last session of the legislature.

**Lane Will Have Expert.**

Eugene.—As a result of the meeting of a delegation of prominent grangers of Lane county with the commissioners' court, the court has decided to appropriate \$2000 for the purpose of employing an agricultural expert for Lane county, the state to give a similar sum, according to the law passed by the last legislature.

**Fairs Get Support.**

Salem.—N. C. Maris, field worker for industrial fairs, has returned from Grant county, where he visited 22 schools in the interest of the fairs. Mr. Maris says teachers and pupils are taking the liveliest interest in the fairs and that a new record will be established next year.

**Greenhorn Ore Strike Reported.**

Greenhorn.—Kelly & Larson, pioneer prospectors of the Greenhorn district, have uncovered a quartz deposit of unknown extent showing free gold values reported to run between \$4000 and \$7000 a ton.

**TRAINMEN GET MORE PAY**

100,000 Men to Share \$6,000,000 Increase in Wages.

New York.—The long-lived controversy between railroads of the east and their conductors and trainmen over the latter's demands for more pay has ended.

The employees are granted an increase of wages averaging 7 per cent, and totaling \$6,000,000, about half of what they asked.

One hundred thousand men will share in the increase.

Thus ends by arbitration under the Newlands amendment to the Erdman act a controversy that threatened at one time to tie up by strike the transportation facilities of all states east of the Mississippi river and north of the Ohio.
