

# ALL AROUND TOWN

**Benefit Success**—  
The benefit which was given by the Ladies of Forest Grove last Wednesday evening in the C. Coterie Hall proved a great success. The program consisted of all local talent and was of the best. The proceeds amounted to something over \$60 that night but kept growing until at last report had grown to the sum of \$70.20. This money goes to help pay the expenses of Mrs. Mary Neil, who has been confined to her room for some months past and recently underwent an operation at the local hospital.

**Got One Year in Jail**—  
Frank Stichler and Charles Davis plead guilty of having filched stuff in the Sherwood neighborhood several weeks ago in the Circuit Court yesterday, and were sentenced to one year in jail, but paroled on good behavior. The sons of these two men, Elmer Davis and L. B. Stichler, who were brought to Hillsboro at the same time with the wayward fathers on the same charge did not plead guilty, and they will be up for trial probably tomorrow.

**Still No City Arrests in Hillsboro**—  
Hillsboro is exceedingly quiet since the booze joints closed. Not necessarily in a business way, as the merchants seem to be doing as much as ever, but from a hilarious standpoint the town is very calm. Not an arrest by the city officials since the first of the year, and the only thing the marshal finds to do is to lead an occasional dog, that has unwarily come to town, to the calaboose.

Last week the Circuit Court jury was absent and Judge Campbell handled a few cases. A few divorce cases were disposed of, the plaintiff's in most of the cases being freed from the galling chains that bound them. A

few civil cases of lesser nature were also disposed of. The grand jury was in session Friday and Saturday, and brought in twelve true bills. The trial jury reported again for duty Tuesday after two weeks vacation.

Friday February 13th was a big day to the road supervisors of Washington County. On that date they all met at Hillsboro to discuss good roads, every mother's son of the entire bunch of road masters in the county being present. A talkfest that was both enjoyable and profitable was indulged in.

At the forenoon session ex-road master Chapman of Multnomah county gave an instructive talk on the proper methods of building macadam roads, and showed by means of a black board just the proper way to lay out the roads and cover them with the crushed rock so as to get the best results.

In the afternoon Prof. Skelton, of O. A. C. told how to build good dirt roads, and impressed his hearers with the fact that good drainage is necessary. Several of the road supervisors gave short talks, giving their methods that they had found best in road work.
