FOREST GROVE PRESS WILL BE CONSOLIDATED WITH NEWS-TIMES

A. E. Scott Purchases Press and Will Consolidate With News-Times--This Is the Last Issue of the Press

After nine months of earnest effort to establish two first class newspapers in Forest Grove, Mr. A. E. Scott has purchased the Press and will at once consolidate it with the News-Times. The change is looked upon with the general approval by the business men and the public at large, for under the new arrangement not only the advertisers will obtain better service for their advertising, but also will the readers be furnished a better paper than would be possible when so much expense is necessarily lost in needless duplication. The editor of the Press regrets very sincerely that he will not be able to continue his residence in "Oregon's Home Town," and wishes to assure his many friends that he will never miss an opportunity to visit Forest Grove and Washington County. This is the last issue of the Press and all out standing bills are requested to be presented at once in order that the business affairs may be settled. Collections for the three issues of this month will be made Thursday and Friday of this week. Thanking you all for the generous patronage that you have seen fit to give to the Press and wishing you all your just share in the prosperity and development that is certain to bless this richly endowed community, I remain ever your friend, GEORGE HUNTINGTON CURREY.

Call and Get Prizes.

The names and votes of others standing high in the contest are given elsewhere in this issue.

All that remains is for the young ladies mentioned at the top of the column to call and claim their own. All the prizes are ready to turn over.

Candidates and their friends thronged the office all day Saturday, and the contest department was taxed to its utmost to handle those who had votes and subscriptions to turn in. At 10 o'clock sharp the ballot box was closed, and on Monday evening the ballots were counted with the results noted.

Interesting History.

The history of the contest is interesting. Slowly at first the votes began to come in, then increased gradually for a while until when the workers got thoroughly warmed up they rolled in in such numbers that the total soon amounted to enormous figures. The friends of the contest-

ants desired to see them win and insisted on making the fact public, by voting for them and getting their friends to do likewise, and the smallest boy or girl was just as powerful as their elders in boosting their favorite candidate. More than one man stole an hour or two from his office at intervals during the contest to make a personal canvass for some friend, and many a dinner dish was left unwashed while the women of the household went calling and incidentally looked for votes.

The young ladies who engaged in the Press contest request us to sincerely thank their many friends for the universal courtesy shown them while making the canvass and for the liberal support given each one. The Press wishes also to thank each young lady for her effort and all friends who have in any way aided the paper or the contestants. To the Forest Grove Press— I wish to thank the many friends who so generously and willingly
