Notice to Taxpayers

Notice is hereby given that on Tuesday, February 15, 1916, the tax rolls for the year 1915 will be opened for the collection of taxes. The first half of all taxes should be paid on or before April 5th following, and the second half on or before October 5th following. Interest shall be charged and collected at the rate of 1 per cent per month or a fraction of a month until paid. "Interest at said rate applies to the first

half if not paid by April 5th, and to the second half if not paid by October 5th." All taxes remaining unpaid on October 5th, shall become delinquent, and on November 5th a penalty of 5 per cent will be charged and collected thereon in addition to the interest provided herein. Any day after the expiration of six months after the taxes charged against real property are delinquent, the Sheriff shall have the right, and it shall be his duty upon demand to make out and issue certificates of delinquency against such property. Certificates of delinquency shall bear interest at the rate of 15 per cent. On or as soon as practicable after October 5th, the tax collector shall proceed to collect all taxes levied against personal property, and which shall have been unpaid, and shall levy upon sufficient goods and chattels of delinquent taxpayers and sell same to satisfy said tax, or said Sheriff shall charge said personal property tax against real property and said tax shall become a lien upon said property, and shall be enforced in the same manner as other real estate tax liens.

J. E. REEVES,
Sheriff of Washington County, Oregon.
6-tf By J. C. Applegate, Deputy.

The Car that Detroit Likes
Better than any other in the World.

In Detroit, where people KNOW cars, more Studebakers are in use than any other cars listing at more than \$500.

This is significant,

For the simple reason that Detroit is the Home of Automobiles. More than three-fourths of the cars manufactured in the United States are made in Detroit.

In Detroit a BIG percentage of the residents are either directly engaged in the motor industry—or come into DAILY contact with people who are.

They talk cars. They study cars. They hear gossip from all the great factories established in the city. They know the plants and the efficiency of the manufacturing organizations. They know the men back of the cars.

And, as a whole, knowledge of automobiles is far more general and EXACT in Detroit than in any other city on the earth.

So when you know that for the entire year of 1915 registrations in Detroit showed MORE STUDEBAKERS in use than any other cars selling at more than \$500, it can mean but one thing—that to the people of Detroit, people who KNOW cars and who KNOW VALUE in CARS, Studebaker offers the top value of the market.

And this fact is all the more significant when you know that Studebaker has only been selling cars in Detroit for about half as long as its nearest competitors have.

In half the time, Studebaker has outstripped them all, and today you go to Detroit and find more Studebakers on the streets than any other make of cars costing over \$500.

Let us show you the new SERIES 17 Studebakers, the Cars of the Golden Chassis.
