The American—We have 20 minutes to spare.  
The Stranger—I knew it. In this country you will race the car, burn up gasoline, imperil lives, run the chance of being arrested and kill a chicken to gain 20 minutes for which you have no use when you get them.—Life.

## Delayed.

"Henry," said his wife reproachfully, "do you know that it was 3 o'clock when you came home this morning?"  
"You are mistaken, my dear," he replied. "It was just half past 1. I looked at the clock on the church tower as I passed the corner."  
"Far be it from me to doubt your word, Henry," answered his wife, "but if that is the case it must have taken you an hour and a half to open the front door."

## ELDERLY WOMEN SAFEGUARDED

Tell Others How They Were Carried Safely Through Change of Life.

Durand, Wis.—"I am the mother of fourteen children and I owe my life to Lydia E. Pinkham's Vegetable Compound. When I was 45 and had the Change of Life, a friend recommended it and it gave me such relief from my bad feelings that I took several bottles. I am now well and healthy and recommend your Compound to other ladies."

—Mrs. MARY RIDGWAY, Durand, Wis. A Massachusetts Woman Writes: Blackstone, Mass.—"My troubles were from my age, and I felt awfully sick for three years. I had hot flashes often and frequently suffered from pains. I took Lydia E. Pinkham's Vegetable Compound and now am well."  
—Mrs. PIERRE COURNOYER, Box 239, Blackstone, Mass.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness, should be heeded by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through this crisis.

## BIT OF REAL POLAND

VILLAGE IN ASIA MINOR HAS AN INTERESTING HISTORY.

Peopled Many Years Ago by Veterans of the Crimean War, the Community Has Maintained Its Purity and Independence.

Hundreds of miles from Poland, in Turkish territory, not far from the Black sea and the Bosphorus, there is a Polish village. It has been there for 60 years. But the news of its existence will come as a surprise both to the world at large and to the Polish Poles of Poland.

The village was "discovered" recently by a German journalist, the correspondent of a Berlin newspaper, who was watching the fighting at the Dardanelles. He sandwiched in between his dispatches describing death and destruction on the Gallipoli peninsula an interesting description of this peaceful and forgotten bit of old Poland under the title of "A Polish Island."

The village was founded back in the fifties of the last century during the Crimean war. Among the Russian soldiers fighting in the Crimea against the British and French and Turks were some from Russian Poland. Of these a number were captured by the Turks and taken to Scutari, opposite Constantinople, in Asia Minor. There some Polish noblemen, bitter enemies of Russia, found these men, and hit upon the idea of emancipating this handful of their fellow-countrymen from the control of Russia. Foremost among these noblemen was Prince Adam Czartorisky, a very wealthy man, who, from his own pocket and out of funds collected by him from other Poles who hated Russia, purchased lands in Asia Minor from Turkish owners and there established the Polish prisoners in a village of their own.

On that spot the prisoners and their descendants have continued to live to this day. When the German journalist visited the village he found a few of the original colonists still living. The villagers, he writes, are genuine Poles, still speaking their native tongue. The noblemen who founded the village fetched the wives of many of the prisoners from Poland when the village was first started, and their offspring have intermarried among themselves, thus preserving the purity of their race. Not one of them, says the German writer, has married a Turk or even learned the Turkish language that is spoken on every side of this little "Polish Island."

## Much Timber Wasted.

Fifteen per cent of the timber cut in the United States is wasted every year and government experts are engaged in a number of experiments to determine to what extent a huge money loss to the country may be prevented by utilizing the waste.

One of the interesting experiments under way is the utilization of sawdust in the manufacture of alcohol. These tests have hardly more than passed an experimental stage, but technical men are optimistic as to the ultimate success of the process. Another interesting possibility is the utilization of hydrolyzed sawdust as a carbohydrate cattle food.

The use of wood for producer gas, according to officials, deserves more extended introduction in industrial plants. Dr. E. E. Pratt, chief of the bureau of domestic and foreign commerce, in a report to Secretary Redfield said that the manufacture of plastics from wood, as well as the manufacture of wood flour, has not been developed in the United States, and that European nations are far in advance of this country in the utilization of such by-products.

## "Hoboism is a Disease."

"Hoboism is not a habit, but a disease."

"There are 3,000 to 4,000 homeless men in Cleveland today—hoboes, tramps and bums."

"On the Trail of the Hobo," was the subject of Rev. John A. Gray, instructor in sociology in the extension division of the University of Minnesota, and formerly pastor in New York, who spoke under auspices of the Cleveland Lyceum bureau at East Cleveland Congregational church, Euclid and Page avenues, East Cleveland.

Rev. Mr. Gray based his assertions on a two weeks' investigation of Cleveland's homeless problem, during which he lived among hobos, tramps and bums in the city's cheap lodging houses.—Cleveland Plain Dealer.

## Counted Them All.

## Save Money on Your Stump Blasting—

The explosives that get stumps out cleanest and cheapest are those that have a heaving and lifting effect, shattering the stumps just enough to break them up. Then you can handle them easily.

"The farmer," says an Experiment Station, "should use an explosive that stands all ordinary shocks of handling and does not easily freeze. He does not need the expensive nitro-glycerine explosives." Thousands use

and save money because they go further than others. They are made especially to suit Western farm conditions.

Giant Farm Powders—the product of the oldest manufacturer of high explosives in the United States—are the only genuine "giant powders" for agricultural use. They are made in two brands—Giant Stumping Powder, ideal for blasting in wet ground; and Eureka Stumping Powder, the money-saving, low-freezing explosive for blasting stumps in dry soil.

Ask your dealer for Giant Powders and blasting supplies. If he does not have them we shall see that you are supplied.

## Made Him Nervous.

A crowd of dirty-faced urchins were playing dangerously near the edge of a Providence pier. Suddenly an old salt, who had been a fidgety onlooker from the cabin of his boat, emerged from his favorite post and proceeded to soundly thrash one of the lads in question.

Some passer-by, surprised by his actions, stopped to question the old tar thereon.

"Wal, I'll tell ya," said the old fellow as he regretfully ceased his hold on the lad's collar. "'Tain't as I care a hang whether they fall in or whether they don't, but it's the danged uncertainty about it that I can't stand."—Judge.

## Politics.

"I always like to meet a fellow who came from a farm," remarked Congressman Flubdub.

"Yes?"  
"Yes. You can advise him to go back to it if he isn't a success, and congratulate him on leaving it if he is."—Louisville Courier-Journal.
