

Valuables and Safety

If your house is a Safe Place for your insurance Policies, why insure? Also your deeds, mortgages and notes—are they safe, too? You keep them in a locked tin box? True, but you don't carry the box around with you, do you? That tin box is no more protection than a rubber band.

A Safety Deposit Box in our fireproof vault will provide both security and privacy. The charge is very small.

Government Ownership of Railroads
Do you believe in government ownership of railroads? If you do, come and hear what the Willamette debaters have to say about it. If you don't, come and hear the arguments of the P. U. team.

This is the first time in several years that P. U. and Willamette have met in intercollegiate debate and this promises to be a hot contest.

James Rasmusen and Glenn Jack will uphold the affirmative against Willamette's negative team.

The men have been studying the question for two months and if you want to hear some good arguments on this question, you'd better come.

Remember the date—Friday, April 21.
