

You Don't Have to Wait for Your Pass-Book

The President

"You don't find out monthly statements is one of the best moves this bank ever made."

The Bookkeeper

"Great stuff! No more balancing pass books. I can keep every account up to date all the time."

The Depositor

"Real! This statement handed me one a month with my cancelled checks tells me just how my account stands. This is Real Bank Service—has the pass book beat a mile."

You do not need to leave your pass-book (your only receipt for deposits) with this bank and wait a day or more at the last of every month in order to find out how your account stands.

Instead, a neatly-printed, machine-figured statement of your checks and deposits, and the balance of your account is ready for you each month.

This improved service is made possible by the Burroughs Book-keeping Machine which is used in our accounting department.

The machine keeps every depositor's account figured right up to date all the time. If you ever want a statement in a hurry, we can give it to you inside of five minutes. Moreover it is absolutely accurate, as the machine never makes a mistake in figuring.

We are sure that you will find this Monthly Statement System less burdensome, more accurate, and far more satisfactory than the method of balancing pass-books.

Suspected of Murder

William Hadley, sometimes known as "Soldier Bill," arrested at Astoria Monday to answer to a charge of wife desertion in Portland, is suspected by many of knowing something of the murder of Mrs. Helen Gore Jennings and Fred Ristman, near Tualatin, on the night of May 15th, last. Detectives Thatcher and Davis, who have given considerable time to the murder mystery, appear to be of the opinion that Hadley is the murderer, instead of Bennett Thompson, held in the Hillsboro jail for trial. It is probable that the Washington county grand jury will "quiz" Hadley when that body convenes tomorrow.
