Portland People

Buy a Range Here

While it has become a habit with certain people to flock to the larger cities to buy their supplies, one Portland man has discovered that he can save money by buying a range in this city. Monday this man, who travels considerably between Portland and Forest Grove, asked Willis Goff the price on a certain model of Monarch range.

Mr. Goff gave him the regular Goff price, \$67.00, f. o. b. Forest Grove. After a little work with a pencil, the man ordered the range sent to him at Portland, saying the price in that city was \$72.90, and he could pay the freight from Forest Grove to Portland and still save better than \$5.00. Think these things over, friend, before you rush away from home for your hardware, stoves, e'c. Forest Grove is fortunate in having a hardware firm which buys in such quantities that it can undersell Portland houses.

Rooms Wanted for College Men

Several college men desire rooms for the college year. Persons having rooms suitable for them to rent are requested to send in descriptions of such rooms to the college office at once, including the following points: Street address and name of person holding room for rent; location of the room, size; whether for one or two occupants; nature of heat, light, water service; toilet and bath facilities; price per week or month for one or two persons. Friends are requested to submit this information, whether they have previously communicated with the college office about it or not.

Domestic Help by College Women

Arrangements have been completed whereby young women of the College may room at the Dormitory and go out during the day to render domestic service in return for their board. Some of the ladies of Forest Grove are taking advantage of this convenience and there are still several of the young women available for housework. Friends desiring their services should communicate with Mrs. C. J. Bushnell, who will act as matron of the dormitory during the coming year.
