BATTLES IN PEAKS

ALPS COULD TELL STORY THAT WOULD THRILL.

Mountain Ranges the Scene of Many Historic Encounters—Passes Traversed by Soldiers Thousands of Years Ago.

If the rugged peaks of the Alps could tell their story, there would be many a thrilling and warlike incident to relate; but none so strange as the ones enacted between the Austrians and the Italians in these mountainous regions. The Italians are absolutely at home in the mountains, and the Austrians are using every invention of science to counteract this advantage. All the parapets on the steep roads, where summer tourists were wont to motor, have been demolished, and beautiful pine forests have been swept away, so that nothing shall obstruct the artillery. Large areas have been mined, and by pressing a button the Austrians can hurl an avalanche of rocks and boulders on to the heads of the advancing Italians or blow up the roads beneath their feet.

From the Cottian chain, marking the boundary of France in the west, to the Carnic and Julian Alps, north and east of the Adriatic in Austria, there are generally a thousand passes and routes of more or less note, nearly all traversed by practicable roads, and some shortened by railroad tunnels. Over these roads armies marched to battle over two thousand years ago.

Mont Cenis pass may have been Hannibal's route when, in the year 218 B. C., the Carthaginian conqueror invaded Italy with a large army, half of which he lost amidst the Alpine snows. The conquest of some Alpine tribes by Augustus; the desultory warfare of Teutonic and Frankish hordes in the fifth and sixth centuries, and the increasing sanguinary strife of Swiss "confederates" and Austrian oppressors, which lasted from the breaking up of the Carolingian empire, in the tenth and eleventh centuries, until the crystallization of the Helvetic republic by Napoleon Bonaparte's act of mediation in 1803—all these fill the chronicles and make nearly every practicable foot of Swiss territory heroic ground.

When Napoleon entered Italy he crossed the Alps with an army of 30,000 by the Great St. Bernard pass, May 15-21, 1800. Later he constructed the great military road over the Simplon pass, from Brieg, in Switzerland, to Domodossola, in Italy, and thence to Milan.

Prehistoric Man.

The life habits of prehistoric man, as well as his antiquity on earth, are known almost entirely from fossil remains of various sorts. The data, however, are very scanty and insufficient for strictly logical deductions. Tools and hunting weapons, bones of tropical fauna and remains of man are found in the gravel beds of western Europe. Apparently man antedates the glacial period as this tropical fauna there was previous to the ice age and because remains of glacial fauna, together with human remains, occur in later geological deposits. Thus, the antiquity of man becomes a question of the date of the ice age, and that occurred 60,000 years ago at least. The implements of prehistoric man form a basis of a division of early industrial development into the stone age, the bronze age, and the iron age.

Dearie Me!

Ethel—Has Tom proposed yet, Maud?
Maud—No, not exactly.
Ethel—Not exactly! What do you mean?
Maud—Well, you know, he always used to knock when he came to our house to visit me. Well, last night he came with a ring.

Can White Cats Hear?

The acuteness of the average cat's sense of hearing is proverbial, but it is a proverb that needs qualifying. For example, many white cats are said to be absolutely deaf, and though the idea may appear absurd at first sight, it is believed by some students that the color of a cat is associated with its sense of hearing. Among several imported Persians, or long-haired cats, from abroad, not one white one in the number has been able to hear the slightest sound. Of course there are white cats that can hear, but they have been as much to the short-haired pets of the fresside as to the aristocratic long-hair of the shows.

Blunt Insinuation.

A fashionable painter, noted for his prosaic output, was discussing at a studio tea in New York a recent scandal in the picture trade. "Look here, old man," said a noted etcher, "do you paint all your own pictures?" "I do," the other answered hotly, "and with my own hands, too." "And what do you pay your hands?" the etcher inquired. "I'm thinking of starting an art factory myself."

Couldn't Help It.
"Doctor, my brother stepped into a hole and wrenched his knee, and now he limps. What would you do in a case like that?"
"I'm afraid I should limp, too!"—Pittsburgh Dispatch.

Misery in Back, Headache and Pain in Limbs.

Dear Mr. Editor—For more than a year I suffered with misery in the back, dull headache, pain in the limbs, was somewhat constipated and slept poorly at night until I was about ready to collapse. Seeing an account of the wonderful qualities of "Anuric," prepared by Doctor Pierce, of Buffalo, N. Y., I sent for a box, and before using the whole box I felt and still feel improved. My sleep is refreshing, misery reduced, and life is not the drag it was before. I most cheerfully recommend this remedy to sufferers from like ailments.
Yours truly, W. A. ROBERTS.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce and his well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists of Dr. Pierce's Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Anuric" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing Tablet, Dr. Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers.

I know of one or two leading druggists in town who have managed to procure a supply of "Anuric" for their anxious customers in and around this locality. If not obtainable send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

A Protest.
Papa was about to apply the strop. "Father," said Willie, firmly, "unless that instrument has been properly sterilized I desire to protest."
This gave the old man pause.

"Moreover," continued Willie, "the germs that might be released by the violent impact of leather upon a porous textile fabric but lately exposed to the dust of the streets would be apt to affect you deleteriously."
As the strop fell from a nerveless hand Willie left him.—London Saturday Journal.

A Carelessly Treated Cold

is the source of most sickness because drugged pills, syrups and alcoholic mixtures are uncertain and unsafe.

Scott's Emulsion has been relied upon by physicians for forty years as the safe and sensible remedy to suppress the cold and build up the enfeebled forces to avert throat and lung troubles.

Don't tolerate alcoholic substitutes, but insist on the Genuine Scott's Emulsion. One bottle usually lasts longer than a cold. Every druggist has it.

A Time for the Two Bears.
We have a friend who is fond of telling how his elderly mother took him aside when he was about to be married and advised him always to keep two bears in his home if he would be happy.

When he asked her what she meant she explained that the animals she had in mind were "bear" and "for bear."

The homely story is one that we Americans might well lay to heart just now. In both our foreign and domestic relationships great forbearance may soon be necessary to avoid quarrels, and quarrels are invariably ruinous to happiness, disturbing to business and nearly always lead us to do many things that we afterward regret.—Commerce and Finance.

Women Once Invalids

Now in Good Health Through Use of Lydia E. Pinkham's Vegetable Compound. Say it is Household Necessity. Doctor Called it a Miracle.

All women ought to know the wonderful effects of taking Lydia E. Pinkham's Vegetable Compound even on those who seem hopelessly ill. Here are three actual cases:

Harrisburg, Penn.—"When I was single I suffered a great deal from female weakness because my work compelled me to stand all day. I took Lydia E. Pinkham's Vegetable Compound for that and was made stronger by its use. After I was married I took the Compound again for a female trouble and after three months I passed what the doctor called a growth. He said it was a miracle that it came away as one generally goes under the knife to have them removed. I never want to be without your Compound in the house."—Mrs. FRANK KNOBL, 1642 Fulton St., Harrisburg, Penn.

Hardly Able to Move.

Albert Lea, Minn.—"For about a year I had sharp pains across my back and hips and was hardly able to move around the house. My head would ache and I was dizzy and had no appetite. After taking Lydia E. Pinkham's Vegetable Compound and Liver Pills, I am feeling stronger than for years. I have a little boy eight months old and am doing my work all alone. I would not be without your remedies in the house as there are none like them."—Mrs. F. E. Yost, 611 Water St., Albert Lea, Minn.

Three Doctors Gave Her Up.

Pittsburg, Penn.—"Your medicine has helped me wonderfully. When I was a girl 18 years old I was always sickly and delicate and suffered from irregularities. Three doctors gave me up and said I would go into consumption. I took Lydia E. Pinkham's Vegetable Compound and with the third bottle began to feel better. I soon became regular and I got strong and shortly after I was married. Now I have two nice stout healthy children and am able to work hard every day."—Mrs. CLEMENTINA DURING, 34 Gardner St., Troy Hill, Pittsburg, Penn.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice,—it will be confidential.
