# Resino heals babies' skin troubles

Resinol Ointment and Resinol Soap have been recommended by physicians and nurses for many years in the treatment of infantile eczema, teething rash, chafing, etc. They contain nothing which could possibly injure or irritate the tenderest skin. Sold by all druggists. Resinal Soap for baby's bath tends to prevent skin-troubles.

Bunches, and other cow ailments which are likely to result from a run-down condition of the diges-tive or genital organs.

Keep your cow healthy; it pays. Kow-Kure will do it. Buy a package and follow the simple directions. 50c and \$1.00 from your druggist or feed dealer. Valuable book, "The Home Cow Doctor," free by writing,

DAIRY ASSOCIATION COMPANY Lyndonville, Vt.

NOT ALWAYS BECAUSE THEIR MACHINE IS BROKEN.

Scientist Expresses Belief That The High Altitude Frequently Affects "Airmen"-Has Made Many Tests Apparently Proving It.

We often hear it said that the aviator who falls to the earth is the victim of a broken machine. When an aviator falls to his death his machine is usualy so badly damaged that it is impossible to say which part was not in good working condition.

Doctor Placzek, a well-known German scientist, has long suspected that the fault was not with the machine at all in nine cases out of ten, but that ome profound change, either physioogical or psychic, causes the aviator to lose control of the motor. Such a We want all you have. Write for prices and shipping tags change, he thinks, may be due to the extremely high altitude.

> He tested his theory with a pneunatic cabinet, so constructed that the itmospheric pressure could be quickly diminished. In this he placed a norand, healthy man. He then reduced he pressure of air to correspond to an altitude of 12,000 feet.

Doctor Placzek found by various tests to which he subjected the man in the cabinet that the power of concentration was materially impaired. In some way also muscular activity was hampered, that is to say the muscles did not respond either with lacrity or precision to the impulses of the will. The enfire mechanism of the human machine, through lack of entralized action, was thrown out of gear.

In addition to the diminished atmospheric pressure from which the aviator and the subject in the cabinet alike suffered, the aviator labors under an appreciable excitement. He is subected, furthermore, to a continual change of atmospheric pressure, the same being now greater, now less, as the airplane is swept up or downward day and a half outside the local doc- by currents of air, which, at a great altitude, are swift and strong, so that the task, both difficult and delicate, of instantaneously adjusting itself to continuous changes, is laid upon his organism.

The aviator also has other difficulties to contend with. The difference in temperature from the earth he has left the wind, which accentuates the cold, and, at first contracting the blood vessels, later expands them as they become paralyzed by the cold. Then, me tell you that Fred has given Kitty a diamond ring. You have never given when they are enlarged, more blood resenting the higher apes, was started rushes to the skin to fill the enlarged 13 years ago by Ales Hrdlicka, and vessels, and the internal organs sud-"Dearest, it is only girls who are denly find themselves with a dimin-

shed and insufficient supply of blood. This is not a wholesome condition for any of the organs, but for the brain and heart it is particularly serious.

### Good Work of Ozone.

The effect of ozone upon slow-heaiing wounds seems to commend it to it even when you tell them not to make fools of themselves.—Houston extensive use. In 21 cases reported by Dr. George Stoker of the Oxygen hospital in London, the injuries, chiefly in cavities of the long bones, had persisted animals, 81 rodents, 47 edentates or that for the keys of my typewriter." from three weeks to fourteen months, gant language," said Mrs. Blunderby of but after the direct application of ozone cure was complete within five tiles. days to seven weeks. Besides its direct cleansing action, the czone greatly aids in eliminating dead bone, foreign bodies and harmful deposits. It was concluded that this substance acts as a very efficacious germicide, serves through the wounded tissue as a powerful stimulant of the circulation, and promotes the combination of oxygen with hemoglobin in the blood. The first application of ozone brings about an increase of pus, which is followed by clear serum, then by reddish serum, when the healing process becomes much accelerated.

### Danger in Raw Pork.

There is considerable danger in enting pork or pork products raw or not thoroughly cooked. The disease frequently resulting is called trichinosis. It is caused by certain round worms, microscopic in size, that often infest the flesh of hogs,

Of 8,000,000 hog carcasses microscopically inspected by federal inspectors in eight years, about one in every thirty-nine contained these worms. Of about 1,200 American cases of trichinosis, 255 came from eating raw sausage

and 213 from raw ham, In a community in Wisconsin last year 21 cases developed in five families and three deaths resulted from eating sausage that was only slightly cooked. These round worms die at a temperature of 140, so thorough cooking does away with possible danger.

### Trade Will Make Peace.

The philosopher and lover of man have much harm to say of trade; but the historian will see that trade was the spirit of liberty; that trade planted America and destroyed feudalism: that it makes peace and keeps peace, and will abolish slavery.- Emerson.

#### MORE THAN HE COULD STAND

Absence of "Properties" Caused Actor to Leave the "Bally Rotten Show" in a Hurry.

Humorous recollections of a slip in stage business turning a thrilling climax into a comical sight is told in E. H. Sothern's book, as shown in the dramatic department of the Sunday Post and that brings to mind the funny ex- lege through his sense of gallantry. perience of Taylor Holmes, the young farce comedian remembered in "The Third Party" and "His Majesty Bunker Benn."

stock company in Newark, N. J. The ker. heavy man was a well-known actor. who was playing in stock to tide him over the summer financially, and he was unaccustomed to the free and easy way of doing without things used in the play.

The regular stock actors made no complaint when props were missing. but improvised as best they could.

The opening night in "Ticket of Leave Man," as Jack Dalton (the heavy) and Melter Moss (Taylor Holmes) were supposed to be kidnaping Bob Brierly to a churchyard, Holmes said to the heavy in the wings just before their entrance:

"Don't ask me for the light. Cut the line.'

"Why should I cut my lines?" demanded the heavy with all his dignity. "You'll have to cut them," insisted Holmes. "I haven't any lantern to give

"My word, what a bally rotten show," said the heavy. "I'm not accustomed azine. to this sort of thing," as he stalked on

All his lines fled-excepting the one he should have forgotten. He locked blankly at Holmes, stuttered and stam-

mered, then thundered: "Moss, give me the glim!"

"I can't gif you no glim; I ain't got no glim," said Holmes. But the heavy was now past comprehending.

"Moss, give me the glim-give me the glim!" he shricked.

"I sin't got no glim. Didn't I tell you not to ask for the glim? You don't need no glim; it's light enough for your dirty work," said Holmes, frantically trying to ad lib and set the heavy straight in the scene.

The heavy gave Holmes one disgusted look; snorted as he threw up his hands, and said: "Good night, this is awful. I cannot stand it, I'm not used to it," and stalked off the stage, leaving the audience howling with glee.

#### Where She Was.

A small boy, who afterwards proved to be a nephew of one of the mayor's stenographers, was wandering about in the city hall when one of the officials there happened upon him.

"Well, sonny," inquired the man genially, "for whom are you looking?" "For my Aunt Kate."

"Can't you find her?"

"I cap't seem to." "And don't you know here she is?" "Not exactly. She's in here somewhere, tho, and I know that the mayor works in her office."-Harper's Mag-

# TURN HAIR DARK WITH SAGE TEA

Mixed with Sulphur It Darkens so Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthand a birthday gift of a 12-cylinder ful appearance is of the greatest advantage.

> Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## DO YOU DREAD WINTER?

If every man, woman and child in this vicinity would only take one spoonful of

after meals for one month, it would put vigor in their blood to withstand the rigors of winter weather and help prevent colds, grippe and winter sickness.

SCOTT'S is a fortifying medicinal-food of particular benefit in changing seasons, and every drop yields direct returns in richer blood, stronger lungs, and greater resistive power. No alcohol in SCOTT'S. Scott & Bowne, Bloomfield, N. J.

#### SUCCESS OF A NEW REMENY FOR BACKACHE, KIDNEYS, PHEUMATISM.

Dear Mr. Editor-I suffered for years with backache. Last March I tried "Anuric" and have used this new kidney medicine recently discovered by Dr. Pierce, and it was wonderful the way it eased the pain and gave me relief in such a short time. I have tried several medicines, but "Anuric" is the only one that gave satisfaction. my duty to recommend "Anuric Tablets" to any one who suffers as I did. (Signed) MRS. MARGARET E. SNIDER.

Note: Folks in town and adjoining counties are delighted with the results they have obtained by using "ANURIC," the newest discovery of Dr. Pierce, who is head of the INVALIDS' HOTEL and SURGICAL INSTITUTE, in Buffalo, N. Y. ache, stiff legs, arms and muscles, and day began because they were in and out of bed half a dozen times at night) are appreciating the perfect rest, comfort and new strength they obtained from Dr. Pierce's Anuric Tablets. To prove that this is a certain uric acid solvent and conquers headache, kidney and bladder diseases and rheumatism, you've never used the "Anuric," cut this out and send ten cents to Doctor Pierce for a large sample package. This will prove to you that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid-and the most perfect kidney and bladder cor-rector. If you are a sufferer, go to your best druggist and ask for a 50-cent box of "Anuric." You run no risk for Dr. Pierce's good name stands behind this wonderful new discovery as it has for the past half century for his "Golden Medical Discovery," a general tonic made from roots with pure glycerine which makes the blood pure, his "Favorite Prescription" for weak women and "Pleasant Pellete" for liver ills.
