P. N. U. No. 5, 1917

**FIND OZONE BEST**  
**SURGEONS IN WAR HOSPITALS USE IT PROFUSELY.**

Other Oxidizing Agents Have Been Proved Open to Some Form of Objection, but This Has Been Proved Satisfactory.

Among the branches of surgery to which the exigencies of the European war have acted as a sharp stimulus may be mentioned the treatment of infected wounds. The proportion of patients who reach the military hospitals with their injuries thus aggravated is said to be so large as to have given great importance to the subject of antiseptics, since obviously the perfect aseptic treatment which most cases can enjoy in ordinary hospitals in time of peace is out of the question for the majority of battle wounds.

Many antiseptics, unfortunately, though excellent germicides, are so toxic that there is danger of their harming the vitality of the tissues surrounding the wound. For this reason hydrogen peroxide is said to be admirable, since it is germicidal without being in any way injurious to healthy cells. However, it is not adequate in those cases, so common in warfare, where there is a serious amount of suppuration. It is almost instantly decomposed, not only by pus, but by blood and most of the other liquids of the body tissues, so that the amount of nascent oxygen released is insufficient for the requirements of a serious wound.

The search for an oxidizing agent not open to this objection, according to a writer in the Scientific American, led to the trial of ozone, either dissolved in water and used in copious irrigations, or in a gaseous state, mixed with ordinary diatomic oxygen. The latter style of treatment is especially advantageous in the case of wounds which are slow in forming a scab, since the most spacious bandages often have a tendency to rub off the fresh scar tissue.

This difficulty is avoided in the process in question by surrounding the wound with a hermetically sealed shell, into which can be passed the gaseous current. This method possesses the extraordinary advantage of leaving the wound open to the beneficial action of the solar radiations as well. Then, too, the total exclusion of the ordinary air from the tissue under treatment makes impossible the formation of nitrogen compounds, which might prove decidedly irritant.

The other mode of application, through the use of ozonized water, has been found particularly satisfactory for large shattered wounds, where the tissues have been directly invaded by septic substances.

**Coal Dust for Fuel.**  
 Spurred on by prospects of shut-downs during the winter because of the shortage of gas, manufacturers in the Pittsburgh district have been conducting experiments with coal dust, which, they assert, prove that the dust can be substituted for gas. The process is to blow the crushed coal into the open-hearth furnaces by means of compressed air.

This fuel, although not as cheap as natural gas, is being furnished to manufacturing plants of the Pittsburgh district considerably cheaper than consumers' gas.  
 The Carnegie Steel company, realizing that there will be a shortage of natural gas for manufacturing purposes this winter, has installed coal-dust fuel machinery at 24 of its 64 open-hearth furnaces in the Homestead works and for eight of its 15 open-hearth furnaces at Clairton. By so doing the company will save 15,000,000 cubic feet of natural gas daily at its Homestead works and 6,000,000 cubic feet at its Clairton works, or a total of 21,000,000 cubic feet daily.

**An Apple a Day.**  
 "An apple a day keeps the doctor away," is the old saying so often proved true. Now, the best way to provide these apples is to place them in a brown wooden bowl or basket, where each member of the family can help himself or herself. One of the new mahogany fruit bowls piled high with red-cheeked apples is an ornament to any living room table or buffet. To go with the apples there is now to be had a silver corer and parer with a wooden handle. This, though sterling, is as sharp as any apple corer in the kitchen, and much more sightly.

**Largest Bank's Deposits.**  
 A compilation of deposit accounts in the world's largest banks at the end of 1915 shows that the Imperial Bank of Russia stands first, the Bank of England second, the London City and Midland third, Lloyd's Bank of London fourth, the Deutsche Bank of Berlin fifth, the Imperial Bank of Germany sixth, the London County and Westminster seventh, the National City Bank of New York eighth and the Bank of France ninth.

**The Arch.**  
 Just where the street of the village ends,  
 Over the road an oak tree tall,  
 Curving in more than a crescent,  
 bends  
 With an arch like the gate of a Moorish wall.

Over across the river there,  
 Looking under the arch, one sees  
 The sunshine slant through the distant air,  
 Aud burn on the cliff and the tufted trees.

Each day, hurrying through the town,  
 I stop an instant, early or late,  
 As I cross the street, and glancing down  
 I catch a glimpse through the Moorish gate.

Only a moment there I stand,  
 But I look through that loop in the dusty air,  
 Into a far-off fairyland,  
 Where all seems calm, and kind, and fair.

So sometimes at the end of a thought,  
 Where with a vexing doubt we've striven,  
 A sudden, sunny glimpse is caught  
 Of an open arch, and a peaceful heaven.  
 —Edward Roland Sill.

**Dr. Pierce's Pellets are best for liver, bowels and stomach. One little Pellet for a laxative—three for a cathartic.**

**Jimmy's Descent.**  
 Deacon Dryden was a bitter foe of the demon rum. His clerk, Jimmy Jetro, was, in secret, quite friendly with the horrid monster.  
 Jimmy roomed above a store. One Sunday morning after a session at poker, Jimmy started on the street. An overload of whisky caused him to fall down the steps and roll to the middle of the sidewalk, just as the deacon passed on his way home from church.

A postal card to Garfield Tea Co., Brooklyn, N. Y., asking for sample will repay you.

**Trusting To Nature.**  
 While in town the countryman thought he might as well call at the fire insurance office and see about insuring his shop and household furniture.  
 "What facilities for extinguishing a fire have you in your village?" the official inquired.  
 The man pondered for a minute or two.  
 "There's the rain," he said.—New York Times.

**WEEKS' BREAK-UP-A-COLD TABLETS**  
 The quickest way to break up a cold. Get the genuine at any drug store. **25c**

**His Loss.**  
 The Husband—Where have you been?  
 The Wife—Playing bridge.  
 "Did you win?"  
 "No, I lost."  
 "You ought to be ashamed of yourself. You should have been at home looking after your children."—Yonkers Statesman.

**Business Weight.**  
 "Our forefathers pledged their sacred honor when they started this country."  
 "How much did they raise on the pledge in cash?"—Baltimore American.

**The Ruling Passion.**  
 "Be as light as you can on me, judge."  
 "Twelve months."  
 "Couldn't you fix it so I could be out in time to see the world series next year?"—Birmingham Age-Herald.

**SAGE TEA TURNS GRAY HAIR DARK**  
 It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.  
 Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

**One Way Out.**  
 "My wife wants me to go shopping with her. I don't see how I'm going to get out of it."  
 "If she were to send you back to your office after less than an hour of shopping and told you she would never take you on such an expedition again, you would consider yourself well repaid for your trouble, wouldn't you?"  
 "Certainly. But how am I going to do that?"  
 "Let her catch you flirting with a fascinating girl clerk."—Birmingham Age-Herald.

**Sporting Instinct.**  
 "You seem to get a great deal of enjoyment out of your automobile."  
 "Yes," replied Mr. Chuggins; "but I believe I'd have more fun if I were a motorcycle cop and could race with everything that came down the road."  
 —Washington Star.

**You can get rid of itching with Resinol**  
 Resinol Ointment and Resinol Soap easily heal most cases of eczema and similar skin-eruptions. The first application usually stops the itching and burning instantly. Sold by all druggists. For sample of each free, write to Dept. 3-T, Resinol, Baltimore, Md. Use Resinol Soap for the complexion.

**Mostly Holes.**  
 "Aren't you afraid the moths will get into this summer stuff?"  
 "They'll find poor pickings if they do. Nothing in that lot but a couple of hammocks, some openwork stockings and four or five peekaboo waists."  
 —Kansas City Journal.

**BY OUR BLOOD WE LIVE**  
 If you tire easily, are subject to cold hands or feet—if you catch colds readily or have rheumatic pains—your blood or circulation is probably at fault and you need  
**SCOTT'S EMULSION OF NORWEGIAN COD LIVER OIL**  
 which is nature's easily-assimilated food, to increase your red corpuscles and charge the blood with life-sustaining richness. **Scott's** creates warmth to throw off colds and gives resistance to prevent sickness. **No Alcohol in SCOTT'S. Every Druggist has it.**  
 SCOTT & BOWNE, Bloomfield, N. J.

**KOW-KURE**  
 If you have a sick cow—or one that is not thriving and producing as she should, why not break away from the worry and uncertainty right now—get a package of Kow-Kure, the great cow medicine, from your druggist or feed dealer and prove for yourself that it has no equal in the treatment of most cow ailments.  
 On thousands of farms Kow-Kure guards the herd against the ravages of Abortion, Barrenness, Retained Afterbirth, Milk Fever, Scouring, Bunches, etc. You don't need to use Kow-Kure on faith; a trial will show decided, visible improvement. Put it to a test—invest today in a 50c or \$1.00 package. Send for our free treatise, "The Home Cow Doctor."  
**DAIRY ASSOCIATION CO., Lyndonville, Vt.**

**Practical.**  
 "It is no use trying to get away from the solemn fact that the woman of today is a most practical and resourceful creature," said the man who has known a few.  
 "What makes you think so?" a friend asked.  
 "The unsentimental attitude of a girl I know. I told her that she had inspired some of my best poems. She didn't say a word about the poems, but she wrote to my publishers for a percentage of the royalties."—New York Times.

**Heartless Sister.**  
 Mildred, who had a small friend to spend the afternoon with her, found that the care of her little brother interfered sadly with their plans.  
 John showed a tiresome persistence in joining their games. Meeting with little encouragement, he asked at last, somewhat wistfully:  
 "Milly, can't I play something?"  
 "Yes, John," she replied firmly. Go into the back room and play you're dead for half an hour."—Exchange.

**Knew The Location.**  
 Three-year-old Sydney had the measles, and was a real sick little boy. His anxious grandmother bent over him and asked sympathetically:  
 "Can't you tell grandmamma where you feel bad?"  
 Without a moment's hesitation little Sydney answered:  
 "Wright here in bed."—Indianapolis News.

Constipation can be cured without drugs. Nature's own remedy—selected herbs—is Garfield Tea.  
**The Best Solution.**  
 "Bridget, you have broken as much china this month as your wages amount to. Now, how can you prevent this occurring again?"  
 "O! don't know, mum, said Bridget, "unless ye raise me wages."—New York Times.

**Backache Just Like a Toothache!**  
 Dear Mr. Editor—Sometime ago I had backache very bad; it would ache just like a toothache. I tried a new discovery of Doctor Pierce's, called "Anuric." This is for kidneys and backache. I soon felt relieved of all backache and had no more pain, and I hope others troubled in the same way will try this wonderful new remedy.  
 Yours sincerely,  
**MRS. LINCOLN STEARNS.**

**Note:** It is now asserted with confidence that these painful effects due to uric acid in the system are entirely eradicated. A new remedy, called "Anuric," has been discovered by Dr. Pierce, and is the cause of a drainage outward of the uric acid with which it comes in contact within the body. It will ward off backache, headache, and the darting pains and aches of articular or muscular rheumatism—of those diseases which are caused by too much uric acid, such as gout, asthma, sciatica, renal calculus. "Anuric" prolongs life because old people usually suffer from hardening and thickening of the walls of the arteries, due to the excess of uric acid in the blood and tissues.  
 Dr. Pierce, who is director and chief physician at the "Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has been testing this wonderful medicine for the relief of over-worked and weakened kidneys. The relief obtained by sufferers has been so satisfactory that he determined to place "Anuric" with the principal druggists in town where people could get this ready-to-use medicine. "Anuric" is not harmful or poisonous, but aids nature in throwing off those poisons within the body which cause so much suffering, pain and misery. Scientists assert this remedy is 37 times more potent than lithia.  
 For Diabetes and Bright's Disease this remedy is building up a reputation as good as Dr. Pierce's other well-known medicines which have been proven reliable during nearly fifty years, such as Doctor Pierce's Favorite Prescription for the ills of women, Doctor Pierce's Pleasant Pellets, the liver regulator, and Doctor Pierce's Golden Medical Discovery for red blood.

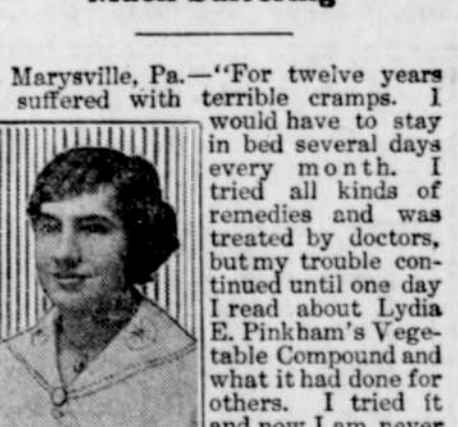

**But Not of the Tracks.**  
 "What is the occupation of the old man who is always asking at the library for books on Indians and Egyptians and Orientals and the like?"  
 "He gives people tips on the races."  
 —Baltimore American.

**THOSE AWFUL CRAMPS**  
 Suggestions that may save Much Suffering

Marysville, Pa.—"For twelve years I suffered with terrible cramps. I would have to stay in bed several days every month. I tried all kinds of remedies and was treated by doctors, but my trouble continued until one day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for others. I tried it and now I am never troubled with cramps and feel like a different woman. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly and I am recommending it to my friends who suffer as I did."  
 —Mrs. GEORGE R. NAYLOR, Box 72, Marysville, Pa.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

Write for free and helpful advice to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Only women open and read such letters.

troubled with cramps and feel like a different woman. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly and I am recommending it to my friends who suffer as I did."
