

SMALL ACCOUNTS

Some banks "don't care to bother" with small accounts. We do. Not because we are philanthropists, but because it pays.

Some of our very large accounts were once very little.

HIGHEST COOKING EFFICIENCY WITH OIL

BY USING THE

Florence Oil Cook Stove

No wicks to trim, to smoke, smell and soot up the house. No valves to wear out, clog or leak. Their heat is easily and quickly regulated by turning a simple little patented lever.

When once set, the Florence Burner requires no "turning up," because there is no wick to burn off, and the flame will remain the same until the lever is moved.

Each burner costs about one-half cent an hour. Very much cheaper than coal or gas.

We honestly believe the FLORENCE type of oil cook stove is the best. Come and See.
