

**Protect your wife and children with a Bank account
It is your duty**

The man who does not PROTECT his family from the hardships that might follow his death does not deserve a family. The first duty of any self-respecting man is to bank some money against sickness or death, or any unlooked-for calamity that may befall him. If you have not realized this before, think it over now. And by a few slight sacrifices on your part, you can start a bank account that will come in handy to you and your family some day.

Do your banking with US. We pay 4 per cent interest on Savings deposits.

Free services, upon request, of expert demonstrator to explain the best and most economical methods of operating appliances.

Why Gas Is Preferable

Fifty thousand, or 90 per cent, of the homes in Portland cook with gas.

There is no mystery regarding this overwhelming popularity of gas. The reasons are ample and plain—

GAS is the ideal home fuel.

GAS is the most economical, convenient and reliable fuel.

GAS reduces the cost and amount of Kitchen labor.

GAS insures perfect sanitation.

GAS eliminates all baking failures.

GAS is the only fuel that gives you the absolute assurance of dependable service.

GAS is the LOGICAL and MOST ECONOMICAL fuel for heating water; no other fuel offers you the same time- and labor-saving qualities. No other fuel affords the same general, all-around cleanliness and convenience.

The Portland Gas & Coke Company, which supplies 90 per cent of the homes in Portland, Oregon City, Milwaukie, Gladstone and Gresham, maintains a service which is equalled by few gas companies in the United States and excelled by none. In the quality of its product and reliability of service, it has established a local standard of its own. Our rate of 95 cents NET per 1,000 cubic feet makes a difference in price, in favor of gas, for cooking purposes, as compared with other fuels.

Special gas rate, 50 cents, net, per thousand cubic feet for house-heating purposes.

Our Minimum charge is only 50 cents per Month.
