FINE AT BREAKFAST

FOUR DISHES, ALL OF UNQUESTIONED MERIT.

Require Care in Their Preparation and Baking, but Are Well Worth the Time and Trouble Devoted to Them.

There are two tests to put to breakfast breads. One is put by the cook, and that has to do with the time and trouble required in their preparation. The other has to do with flavor and texture, and that comes from those who eat them.

Always let breakfast breads cool slightly on a cloth or wire rack before sending to the table. They will then be more digestible and more easily handled than if sent to the table literally piping hot.

Heat all muffin tins before putting in the muffin mixture. The muffins rise more thoroughly and more quickly when put into hot tins. Remember, too, that most muffins need a quick oven. Popovers need a quick oven, but they also need long and thorough cooking, and some popover cooks let them stay in the oven 40 minutes.

Popovers.—Popovers, robbers' caves or wheat puffs, as they are variously called, are not difficult to make. The ingredients needed are two unbeaten eggs, two cupfuls of milk and two cupfuls of flour, with a quarter of a teaspoonful of salt. Beat all thoroughly together until not a lump remains and then pour the mixture into very hot muffin pans, well greased, filling them about half full. Cook thoroughly, until one broken open is hollow inside and shows a firm wall or crust.

Emergency Biscuit.—Make a good baking powder biscuit dough and drop it, by spoonfuls, into well-greased muffin pans. These biscuits are crusty little things, especially delicious if you have the continental habit of serving honey or jam at breakfast. A good rule for the dough is this: Mix six even teaspoonfuls of baking powder and one of salt with three cupfuls of flour. Sift all together three times and then chop in, with a silver knife, six tablespoonfuls of butter, lard or some other shortening agent. Mix together quickly with a knife and add a cupful of cold water. Mix lightly and then put in the greased pans from a spoon.

Rice Muffins.—Rice muffins are made of one cupful of boiled rice, two eggs, two cupfuls of flour, a tablespoonful of melted butter, three cupfuls of milk and salt to taste. Mix the eggs, butter and milk, sift flour and salt and add it and the rice to the wet ingredients. Bake the muffins quickly.

Rye Gems.—Rye is not in as general use as corn and wheat and graham flour. Rye gems and rye bread are nourishing and economical and rye gems made according to the following rule are a good addition to any breakfast: Beat three eggs, three cupfuls of milk, a tablespoonful of sugar and the same amount of butter, with three cupfuls of rye flour. The secret of making these muffins lies in beating them hard and baking them quickly.

Oyster Canapes.
 Cut small rounds of bread about one-fourth inch thick and fry in deep fat. Drop small oysters in the fat, and let brown. Cover the toast first with catch-up, then with the oysters (two or three should cover the toast. Before carrying to the table, garnish with slices of stuffed olives, and serve with celery hearts, preferably as a first course on the menu.—McClure's Magazine.

Rice Water Custard.
 Here is a nice dessert: Boil rice plain, take water rice was boiled in, add one or two well-beaten eggs according to quantity of water; sweeten to taste and boil as you would any custard, stirring constantly to prevent burning; flavor as preferred and use as sauce for the plain boiled rice.

Squash Pie.
 One and one-quarter cupfuls steamed and strained squash, one-fourth cupful sugar, one-half teaspoonful salt, one-fourth teaspoonful cinnamon or nutmeg or one-half teaspoonful lemon extract (some like nutmeg best), one egg, seven-eighths cupful milk. Mix sugar, salt and spice or extract, add squash, egg slightly beaten, and milk gradually. Bake in one crust. If a richer pie is desired, use one cupful squash, one-half cupful each of milk and cream and an additional egg yolk.

Puree of Carrots.
 Boil enough carrots to make a pint after being run through colander. Put one and one-half pints of milk and carrots on stove, when boiling add three small tablespoonfuls of flour wet in little cold milk. Stir constantly as it boils, and, last, a little pepper, butter and saltspoonful of salt.

Rice and Cheese.
 Boil one cupful of unpolished rice. When done, put in a baking dish with one cupful of milk and one cupful of grated mild cheese. Brown in hot oven.

HANDY FUMIGATING BIN

Simple Form of House Is Easy of Construction.

Great Care Must Be Used in Arranging Doors and Windows—Concrete Is Favored for Erecting Permanent Structure.

A simple form of fumigating house may be made of 2 by 4 spruce, over which any cheap boarding may be used, provided it is free from knots and tongued and grooved so that the boards may be tightly fitted together. Shiplap is not desirable. The building is rendered air-tight by tarred paper and laths, or better still, by a lining of rubber roofing. Great care is necessary in constructing the door and windows. These should be at least three layers of board thick and should be possible to open the window as well as the door from the outside so that the building may be quickly aired after being used for fumigating purposes.

A more permanent structure and one adapted to a wider range of uses may be made of concrete. It is best to equip such a cellar with ventilators so that it may be used for the storage of fruits and vegetables. These ventilators should, of course, be so arranged that they may be tightly closed when it is desired to use the cellar for fumigating. The most popular size of the average farm is a cellar 10 by 14 feet "side measurements, with a self-supporting arched roof 5 feet above the floor at the sides and 7 feet 8 inches in the center. All of the side walls are 8 inches thick, therefore dig the hole 11 feet 4 inches by 15 feet 4 inches and to the depth desired, usually 5 feet, at one end cut out the earth to a width of 4 feet 4 inches and slope it upward for 7 concrete steps with a rise of 8 inches and a tread of 10 inches, and for a thickness of 4 inches of concrete back of the steps proper, arrange for an 18-inch landing at the bottom of the stair. Make the side wall forms of 1-inch siding on 2 by 4 uprights, spaced 2 feet. As the concrete floor will be 4 inches thick, set up the forms on 4-inch concrete bricks. Above ground level use outside forms similar to the inside. At the entrance end to provide for a doorway, set between the forms a frame of 2-inch by 8-inch stuff, 3 by 7 feet in the clear. Mix the concrete one part Portland

cement to four parts bank-run gravel, or one part cement to two parts sand, to four parts crushed rock. A sack of cement equals one cubic foot. Ventilation should be provided. While building the wall make one or more air shafts (similar to a chimney flue) of 3-inch tile, by imbedding them in the concrete wall, with an opening inside at floor level and another outside, well above ground line. By this arrangement fresh air is admitted. Place a tile chimney in the concrete roof and cover it with a galvanized iron hood for removing the foul air.

How to Redeem Soil.
 Soil that becomes saturated with the refuse from the poultry should be plowed up and sowed to barley. Such a method serves two purposes, purifying the runways and obtaining greens for the birds. The ideal time for doing this is after a good rain.

Critical Period With Poults.
 The critical period in the young turkey is generally at an end when six weeks of age. Inbreeding, lice, dampness and improper food are the main causes for great mortality.

Shed for Implements.
 A long shed not more than 18 feet wide, provided with continuous doors along one side, is more convenient for removing implements than a wider building.

Type Not All.
 The type of the breeder has more to do with egg production than the type of the hen. In other words, breeder type counts for more than breed type.

Good Harness Hangers.
 Crotches or conveniently shaped hickory limbs cut in proper lengths and nailed up against the wall, make good harness hangers.

Get More Out of Soil.
 To know how to get more out of the soil, if it is thoroughly studied, will help us to get more out of life.

W. L. DOUGLAS

"THE SHOE THAT HOLDS ITS SHAPE"
\$3 \$3.50 \$4 \$4.50 \$5 \$6 \$7 & \$8 FOR MEN AND WOMEN

Save Money by Wearing W. L. Douglas shoes. For sale by over 9000 shoe dealers. The Best Known Shoes in the World.

W. L. Douglas name and the retail price is stamped on the bottom of all shoes at the factory. The value is guaranteed and the wearer protected against high prices for inferior shoes. The retail prices are the same everywhere. They cost no more in San Francisco than they do in New York. They are always worth the price paid for them.

The quality of W. L. Douglas product is guaranteed by more than 40 years experience in making fine shoes. The smart styles are the leaders in the Fashion Centres of America. They are made in a well-equipped factory at Brockton, Mass., by the highest paid, skilled shoemakers, under the direction and supervision of experienced men, all working with an honest determination to make the best shoes for the price that money can buy.

Ask your shoe dealer for W. L. Douglas shoes. If he cannot supply you with the kind you want, take no other make. Write for interesting booklet explaining how to get shoes of the highest standard of quality for the price, by return mail, postage free.

The Zeppelin as a War Weapon.

As a weapon of offense and terror, the Zeppelin did not fulfill all the predictions of early war days, when the "great raid" over London that was to blow Britain's capital from its base was hourly expected. The national hopes were founded on the Kaiser's characterization of the Count as "the greatest German in the twentieth century." But if the military officials and the populace were disappointed in the Zeppelin as an exponent of "frightfulness," their inventor was undoubtedly aware of the limitation of his airships. He had designed the great machines not for "participation in actual warfare," but "for observations of hostile fleets and armies." And as a scouting instrument, the Zeppelin has done valuable service. The mighty British fleet in the North Sea has not been without its apprehensions of the danger from the air, and in the Jutland battle, the Zeppelins, hovering over the scene of the fighting, were in a position to discover the approach of the English dreadnought fleet and give timely warning to the endangered German cruisers.—From "Count Von Zeppelin," in the American Review of Reviews for April, 1917.

The Tested Skin-treatment

If you want to experiment on your skin, there are plenty of treatments to experiment with. But if you want something whose value has been proven by years and years of successful use, if you want a treatment that doctors prescribe constantly, that you know contains nothing harsh or injurious, you will find it in Resinol Ointment, aided by Resinol Soap. Sold by all druggists.

A Mean Man.

"I never thought Smith was a man to desert a woman in an emergency."
 "Why, what did he do?"
 "Their cook gave notice yesterday, and this morning he left his wife crying for help."—Baltimore American.

Dr. Pierce's Favorite Prescription makes weak women strong, sick women well, no alcohol. Sold in tablets or liquid.

Suitable Kinds.

"What measure would you select for a line of light poems?"
 "Why not try a gas meter?"—Baltimore American.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Quite So.

"Don't take notice of the cook, dear."
 "How can I help it when she's just given it?"—Baltimore American.

Hurrah! How's This

Cincinnati authority says corns dry up and lift out with fingers.

Ouch ! ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.

His Stroke of Luck.

"I've had a bit of luck. I picked up \$100 day before yesterday, and learning this morning that it belonged to that old miser Marx, I returned it to him."
 "I see; and he gave you a reward."
 "Oh no; but he didn't charge me any interest for the two days I had it."—Boston Transcript.

Had Terrible Pains in Kidneys and Back.

Dear Mr. Editor—I want to write you about "Anuric." I was very sick, could hardly be up; I was in bed most of the time. Had terrible pains in my kidneys and back, so much so that I had to scream sometimes when I was sitting down and wanted to get up, the pain was so great. I had tried a well-known kidney medicine but it didn't help me. I heard of Dr. Pierce's Anuric Tablets so I thought I would try them. I took only one box of the Tablets, and my back is now free from pain and I can work and take care of my family. I feel I cannot say enough for this medicine. Sincerely, Mrs. WM. KELLE.

NOTE: This "Anuric" is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine and urinary troubles. The physicians and specialists at Dr. Pierce's great Institution, at Buffalo, N. Y., have thoroughly tested this prescription and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys. Patients having once used "Anuric" at Dr. Pierce's Invalids' Hotel, have repeatedly sent back for more. Such a demand has been created that Dr. Pierce has decided to put "Anuric" in the drug stores of this country in a ready-to-use form. If not obtainable send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

Dr. Pierce's Golden Medical Discovery is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus assists the body to make rich, red blood, which feeds the heart, nerves, brain and organs of the body. You feel clean, strong and strenuous.

A Victim.
 Rural Aunt—"Doesn't the waiter act queer?" Dasher—"Decidedly so; I believe the fellow is tipsy." Rural Aunt—"Dear me; he must be one of the victims of that tipping habit I've read so much about?"—Puck.

NOTICE TO SICK WOMEN

Positive Proof That Lydia E. Pinkham's Vegetable Compound Relieves Suffering.

Bridgeton, N. J.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound for inflammation and other weaknesses. I was very irregular and would have terrible pains so that I could hardly take a step. Sometimes I would be so miserable that I could not sweep a room. I doctored part of the time but felt no change. I later took Lydia E. Pinkham's Vegetable Compound and soon felt a change for the better. I took it until I was in good healthy condition. I recommend the Pinkham remedies to all women as I have used them with such good results."—Mrs. MILFORD T. CUMMINGS, 322 Harmony St., Penn's Grove, N. J.

Such testimony should be accepted by all women as convincing evidence of the excellence of Lydia E. Pinkham's Vegetable Compound as a remedy for the distressing ills of women such as displacements, inflammation, ulceration, backache, painful periods, nervousness and kindred ailments.
