

Making Ends Meet

Many people have a hard time making ends meet. The outgo end should never meet the income end, but the income end should always overlap. The part which overlaps should go into the Savings Bank.

Quit trying to make ends meet and try to make the income end overlap.

On the portion which overlaps, this bank will allow you 4 per cent interest, compounded semi-annually.

While practicing shooting in a pasture on the Todd place, west of the city, last Saturday evening, Donald Misz accidentally killed a valuable Jersey cow belonging to H. B. Johnson. Young Misz says the bullet hit the tree at which he fired, passed through and killed the cow, which he did not see when he pulled the trigger. He has promised to reimburse Mr. Johnson for the animal.

Oil Stove Safety

The Florence is the clean, safe, simple, reliable, economical oil stove—ready to give as much cooking heat as you wish, when you wish it.

You can keep one—or four—burners at an intensely hot flame, or merely simmering. To change the heat you turn a simple, little (patented) lever device. Burners close up under the cooking; no heat wasted.

There are no wicks to trim nor valves to leak. A glass "bull's eye" shows you always how much oil is in the tank. Upper reservoir holds a full gallon.
