Chevrolet Motor Co., Oakland, Calif.

Gentlemen:

I had the pleasure of riding a portion of the way from San Francisco to St. Louis in the new Baby Grand trail blazer driven by Mr. R. C. Durant and Mr. A. D. Plughoff and I personally believe that the new Baby Grand is the finest car ever put out in this country for a thousand dollars or under.

Its easy riding qualities are exceptional. It also has the same great power for which the Chevrolet valve-in-head motor has become famous in the "Four-Ninety" model.

I wish to congratulate the company on this product.

Yours very truly,
W. I. ELLIOTT.

Oil Stove Safety

The Florence is the clean, safe, simple, reliable, economical oil stove—ready to give as much cooking heat as you wish, when you wish it.

You can keep one—or four—burners at an intensely hot flame, or merely simmering. To change the heat you turn a simple, little (patented) lever device. Burners close up under the cooking; no heat wasted.

There are no wicks to trim nor valves to leak. A glass "bull's eye" shows you always how much oil is in the tank. Upper reservoir holds a full gallon.
