## KEEP COLTS GROWING

Important Consideration in Producing Horses Profitably.

Good Horseman Endeavors to Reduce Worrying and Fretting of Young Animal to Minimum—Grain Must Be Supplied.

(By H. H. McCARTY, Indiana Experiment Station.)

To keep the colt growing without interruption during weaning time and afterward is a most important consideration in producing horses profitably. A good horseman aims to replace the milk that the colt has been accustomed to secure from his mother. He tries also to reduce the worrying and fretting of the colt to a minimum. To wean a colt appears to be a simple matter. It is simple as many do it; yet the very low degree of success that is shown on many farms by their unthrifty colts is evidence that there is something wrong or that there is something lacking. Often in a few weeks during weaning time the youngster changes from the growing, sleek, milk-fat colt to a stiff-haired and unthrifty, stunted individual. The colt, if properly cared for, need lose but little of his flesh, bloom and spirit.

#### Feed Some Grain.

Grain must be used as the milk is taken away. It is necessary that the colt have been taught to eat grain before weaning is attempted. Oats have always been preferred by horsemen for young colts. They are undoubtedly superior to any other single grain. The colt likes a mixture or a variety of grains and will thrive best on such a ration. He relishes corn, and it may well be fed as part of the grain ration. It may be said that corn contains a rather high percentage of fat. True, it does, and so does milk, which is as nearly ideal food as nature can make. Corn should not be fed alone nor in too great quantities. Bran is a splendid feed and contains material for bone and muscle. A mixture of oats 60 per cent, corn 30 per cent and bran 10 per cent makes a ration that will enable any colt to grow rapidly. A handful of oilmeal may be profitably added. Then he will be more likely to eat enough to almost make up for the lack of milk.

#### Provide Hay.

Hay should be provided in plenty. Doubtless alfalfa or clover is the most desirable for young growing colts. Both grain and hay should be of the very best quality. If it is at all possible to furnish succulent grass for the colt it should be done. This is a big factor in preventing any check in the growth of the youngster.

### VARIETIES OF HORSE-RADISH

Maliner Kren or Bohemian Are Considered Superior—Time For Planting Is in Spring.

The best variety of horse-radish is the Maliner Kren or Bohemian. The root cuttings can be had from any of the leading seedsmen. The cuttings are made cut straight across at top and sloping at the lower end, so that it is easy to distinguish between them in planting.

The time for planting is in the earliest spring, and the early cabbage plantation is one of the best places. Punch holes in the rows midway between the cabbage plants with a crowbar and put the root cutting in perfectly straight. Then, after the cabbages are cut, the horse-radishes are cultivated through the season. The crop is dug in late fall and the roots trimmed, the side roots cut properly and buried in bundles for the winter, and the main roots put on the market. The roots are at their best at one season's growth, and will decrease in value if left longer. The main roots are sold by the ton usually.

### TIME TO PLANT MUSKMELONS

Soil Must Be Warm and All Danger of Frost Passed—Much Depends on Preparation of Soil.

Danger from frost must be over before planting muskmelons. To get strong, healthy plants that will yield a crop of fancy muskmelons that will bring fancy prices, the soil must be warm at planting time.

Success in growing muskmelons depends on the care with which the soil is prepared. A light sandy soil, with an abundance of well-rotted manure worked to a depth of about four inches is an ideal seedbed. Working the soil before planting time to pulverize it and to improve its condition is necessary. Plant the seed in hills at a depth of about an inch and a quarter. When the plants come up, surface cultivation is best to remove weeds and to conserve moisture, stimulate rapid growth and early maturity of the plants and the melons.

#### Good Hen Feed.

Alfalfa, green or dry, is good hen feed.

## Perfected.

After one year of experimenting in my laboratory, I have perfected a Porcelain and Cast Gold Inlay Crown for bridge attachment which is so superior to the Gold Crown or the Gold Band and Porcelain Crown, that it gives me pleasure to demonstrate the technique of making it to other Dentists.

Fortunately, I have enough Imported German Novocain to last me over one year. I can now absolutely promise to work on your teeth without pain. It is the most wonderful synthetic substitute for Cocaine ever used by the Dental Profession. Dr. Elov T. Hedlund, Dr. L. Bogan, Dr. S. S. Skiff.

Dentistry, "Not the cheapest but the best."

455-459 Morgan Building, fourth floor, Washington at Broadway, Portland, Oregon.

Telephones, Marshall 96; A 3363. Open Evenings. Nurse in attendance.

#### Good Prospect.

"Some say the authorities are up in the air in the defense preparedness."

"I suppose the aviation department authorities must be."—Exchange.

## Is a Poor Skin Your Handicap?

That skin-trouble may be more than a source of suffering and embarrassment—it may be holding you back in the business world, keeping you out of a better job for which a good appearance is required. F. W. VOGLER, Pres.

C. M. MENZIES, Mgr.

#### Prolonged It.

Two English workmen were discussing the war.  
"It'll be an awful long job, Sam," said one.

"It will," replied the other.

"You see, these Germans is takin' thousands and thousands of Russian prisoners, and the Russians is takin' thousands and thousands of German prisoners. If it keeps on, all the Russians will be in Germany and all the Germans in Russia. And then they'll start all over again, fightin' to get back to their 'omes."—Tit-Bits.

#### True to His Promise.

"William, when we were married you promised to stop smoking."

"So I did, my dear. You will remember that I said to you, holding up three cigars I had in my pocket, 'As soon as I smoke these, I'll quit.'"

"Well, you haven't kept your promise."  
"Oh, yes, I have. You see those three identical cigars are still unsmoked. I have them in my desk."—Boston Transcript.

### It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

No nubbies! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callous.

Put a few drops directly upon any tender, aching corn or callous. Instantly the soreness disappears and shortly the corn or callous will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or callouses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.

#### Her Penalty.

He—Does your father object to my staying so late?

She—No; pa says it serves me right for being in when you call.—Boston Transcript.

#### Shortage.

The man who likes to speak his mind Occasion oft will seek.

And when he gets a chance may find He hadn't much to speak.  
—Washington Star.

Dr. Pierce's Pleasant Pellets are the original little liver pills put up 40 years ago. They regulate liver and bowels.

#### Just the Thing.

"Where can I learn to be an expert on tea?"

"I suppose a samovarsity would be the idea for you."—Louisville Courier-Journal.

#### His Extravagance.

"Do you believe that time is money?"

"Yes."  
"I thought so. It's about the only thing you ever spend."—Detroit Free Press.

#### Chestnuts Can.

Jokes can't really be cracked. Then why do they speak of cracking a joke?

I suppose because so many of them are chestnuts.—Exchange.

"They're very patriotic."  
"Very. They're even going to plant potatoes in their window boxes this spring instead of geraniums."—Detroit Free Press.

## HAVE DARK HAIR AND LOOK YOUNG

Nobody can Tell when you Darken Gray, Faded Hair with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

#### Another Kind.

"The Smiths had a big blow-out the other night."

"Was it their daughter's birthday celebration?"

"No; it was their automobile tires."—Exchange.

## What Is Uric Acid?

THE CAUSE OF BACKACHE, RHEUMATISM, GRAVEL AND SUDDEN DEATH.

Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its overabundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" has proved to be 37 times more potent than lithia, and consequently you need no longer fear muscular or articulating rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," or send 10 cents for a trial package of "Anuric Tablets."

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best drug store and ask for Dr. Pierce's Anuric Tablets. They are put up in 50-cent packages.

Doctor Pierce's reputation is back of this medicine and you know that his "Golden Medical Discovery" for the blood and his "Favorite Prescription" for the ills of women have had a splendid reputation for the past fifty years.

Doctor Pierce's Pellets are unequalled as a Liver Pill. One tiny Sugar-coated Pellet a Dose. Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.
