**Beat it, beat it, little car;
How I wonder what you are?
Climbing all the hills on high,
Passing all the others by.**

**As it passed the first man cussed,
While the second merely fussed;
But the last man said, "Oh, say,
It won't stop—it's a Chevrolet."**

Automobile manufacturing is no longer a question of making a dependable motor car. Economy to the owner in operating expense is the important thought.

We have done valuable experimental and designing work, with the result that the average number of miles to the gallon of gasoline is unusually high and the tire mileage is also unusually high.

Proper weight, construction and spring suspension are responsible for this marked change in automobile efficiency.
