"Low temperatures." — Baltimore American.

THOSE AWFUL GRAMPS

Suggestions that may save Much Suffering

Marysville, Pa.—"For twelve years I suffered with terrible cramps. I would have to stay in bed several days every month. I tried all kinds of remedies and was treated by doctors, but my trouble continued until one day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for others. I tried it and now I am never troubled with cramps and feel like a different woman. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly and I am recommending it to my friends who suffer as I did."
—Mrs. GEORGE R. NAYLOR, Box 72, Marysville, Pa.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

Write for free and helpful advice to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Only women open and read such letters.

P. N. U. No. 26, 1917

POINTS ON SELECTION OF SOUND HORSE

| 17. Point of shoulder. | 34. Loins. | 51. Tail. |

An understanding of the desirable and undesirable conditions found in horses, together with a knowledge of their relative values, will enable the purchaser to select a better animal with a considerable saving of time, inconvenience and expense. A thorough examination for the various forms of blemish, vice, faulty conformation and unsoundness in a horse is absolutely essential if serviceableness is to be secured, and a definite method of procedure should be adhered to in making the examination, which should correspond to the order in which the various steps most conveniently present themselves. Figure 1 names the different regions of the horse to which attention will be invited.

Stable Vices.
Evidences of stable vices can best be seen by observing a horse in his stall. Halter Pulling.—Horses wearing extra heavy halters (particularly heavy rope halters) would be suspected of halter pulling. Likewise a rope tied from one stall to the other at about the height of the quarters, or the use of what is known as the body rope, may indicate this defect.

Cribbing and Wind Sucking.—Horses that suck wind through the mouth, accompanied by a grunting sound, are termed wind suckers. Cribbers press their teeth on some object, such as the manger, while sucking in air, consequently the characteristic wear on the teeth may indicate this vice, as does also a broad strap buckled snugly around the neck at the throat latch. Horses with these habits fill their stomachs and intestines with air, giving a bloated appearance to the abdomen. They are hard to keep in good condition and are somewhat subject to colic.

Kicking.—Heavy chains suspended from the ceiling and hanging close to a horse's hind legs, the use of chain hobbles, scars on the hind legs and shoe prints on the partitions are evidences of stall kicking.

Have the horse led out of the stable, so that he may be inspected in a good light and on a level and solid footing. Normal health is indicated by an alert, graceful carriage, rich, lustrous coat, and good condition as to flesh. If backed out of a single stall, look closely for extreme flexion of the hind legs, known as stringhalt, which is dis-

DETERMINE IF SOIL IS ACID

Most Common Test Is by Means of Blue Litmus Paper—How Operation May Be Performed.

The most common test for determining if soil is acid or sour is by means of blue litmus paper, which can be obtained at a very small cost from nearly every druggist. A small quantity of soil from the field is compacted into a ball, the ball broken into halves, a strip of litmus paper laid across one part and the parts pressed firmly together again. After an hour or so the ball of soil should be again broken apart and the paper removed. If the paper shows decided pink color the sample of soil is acid.

If a deep-rooted crop such as alfalfa is to be grown it will be well to test samples taken from both the surface soil and the subsoil.

Quick Growing Vine.
One of the quickest and easiest grown annual vines is the wild cucumber.

cussed later. Take a general survey of the horse from the front, rear and both sides, so as to determine whether he is or is not built on the lines suitable to do the work for which he is wanted.

Temperament.—The temperament of a horse furnishes evidence concerning his disposition and his nerve force. For instance, the nervous, excitable animal (lacking a strong nervous system) is hard to control under many circumstances, while the sluggish, phlegmatic horse, though docile, lacks ambition and endurance. Desirable temperament is indicated by large, mild, bright eyes; width between the eyes and behind the ears; forehead neither too concave nor too convex; willing obedience to commands and an alert, active, graceful carriage when in motion. Temperament and disposition are influenced to some degree by training and handling, so that it is well to keep these factors in mind when testing the horse at work.

Quality.—Quality denotes fine texture in all that goes to make up a horse. It is not possible to examine all the parts, but those exposed to view will give a good idea of the others, since in animals there is analogy between the various parts. The external indications of quality in the horse are dense, flintlike bone, covered with fine, snugly fitting skin, and short soft hair, the two latter to be of this character over the entire body. Quality also finds expression in thoroughly defined lines between the various regions, in clean-cut features, and in a general refinement of tissue and breediness throughout.

Color.—Horses with any of the dark solid colors, such as bay, brown, chestnut and black, are serviceable and sell readily. Dark grays are in demand for draft, show and hunting purposes, but for other uses they are generally slow sellers, because they turn white with age. Pink-skinned whites, duns, mouse colors and spotted colors sell at a discount except for uses where unusual or gaudy colors are wanted. Grays have the reputation of standing the effect of the hot sun unusually well, whereas dark browns and blacks often sunburn readily. White marks on the legs and face are desirable for show purposes, since they give a horse a flashy appearance.

Teach Horse to Mind.
A horse, like a boy, should be taught to mind because he wants to instead of because he has to.

The difference between a bred hereditary layer and an ordinary layer is the difference between a magazine rifle and a breech loader.

Warm Roosting Space.
Roosts should be in the warmest available space. The perches should all be on the same level and each fowl should be permitted from 6 to 8 inches of perch room.

Abundance of Fruit.
One-quarter acre of berries will not cost much to plant and it will give an abundance of fruit the season through.

Safe Business Proposition.
Dairying is a safe business proposition and therefore brings prosperity to the farmer who engages in it.

Changing the water frequently means better health for the birds; quick changes prevent disease spreading.

Try Them All,

Thousands have applied this test, and the increasing sales prove that the satisfying drink is

Blitz

The Drink That Fits.

It's the tasty, tangy drink—brewed of pure malt hops and barley. A beverage unlike all others. Made by patented process. For Sale Everywhere. The Portland Brewing Company.

Sure! High Heels Cause Corns But Who Cares Now

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.

Heard at the Front.
A sergeant was instilling into a squad of recruits that which marks the advent of their military career—namely, squad drill by numbers. One man was exceedingly backward, and exhausted the patience of the instructor, who at last exclaimed in tones of deep disgust: "Heavens! man, if your brains were made of dynamite, the charge wouldn't be sufficient to blow your hat off!"—Tid Bits.

ALLEN'S FOOT-EASE FOR THE TROOPS.
Shaken into the shoes and sprinkled in the foot-bath it gives rest and comfort, takes the friction from the shoe and prevents blisters and sore spots. Makes walking easy. Accept no substitute. Sold everywhere, 25c.

A Needful Precaution.
Mike—Beggorra, I had to go through the woods the other night where Casey was murdered last fall, an' that they say is haunted, an' bedad, I walked backward the whole way.
Pat—An' what for wuz ye after doin' that?
Mike—Faith, man, so that I could see if anything wuz comin' up behind me.—Princeton Tiger.

Did that itching keep you awake last night?

And how can you expect to sleep tonight unless you do something to relieve the trouble? Eczema and other itching skin troubles don't often heal themselves. But it is surprising how quickly Resinol Ointment heals sick skins. Almost daily we hear from a skin sufferer who says "Resinol Ointment stopped my itching at once and I got the first good night's sleep I had had in weeks. Now my skin is well." Resinol Ointment is sold by all druggists.

A Fine Renunciation.
"Doppel has begun to save money."
"I presume he wants to keep the wulf away from his door?"
"Not exactly. Doppel is a man of heroic mold. He says he's going to buy a war bond if he has to do without gasoline." — Birmingham Age-Herald.

CLEAR AWAY PIMPLES
Does Cuticura Ointment—Assisted by Cuticura Soap—Trial Free.

On rising and retiring smear the affected surfaces gently with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water. When the skin is clear keep it so by using Cuticura for every-day toilet and nursery purposes.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.

Raw Days in May.
"Tough times, these."
"Eh?"
"Good many chilly days coming along, and the landlord expects you to heat the flat by opening a window."

WHEN IN SEATTLE

TYPHOID is no more necessary than Smallpox. Any experience has demonstrated the almost miraculous efficiency, and harmlessness, of Antityphoid Vaccination. Be vaccinated NOW by your physician, you and your family. It is more vital than house insurance. Ask your physician, druggist, or send for "Have you had Typhoid?" telling of Typhoid Vaccine, results from us, and danger from Typhoid Carriers. THE CUTLER LABORATORY, BERKELEY, CAL. PRODUCING VACCINES & SERUMS UNDER U. S. GOV. LICENSE

Indian War Veterans
Or their Widow who are entitled to a pension under the act passed March 4, 1917, send name and address and get a copy of the bill. Pension Claim Agent, HENRY HEGWER, 608 3rd St. N. W., Washington, D. C.

Some Improvement.
"Has your father had anything good to say of me since I have been coming to see you?"
"Oh, yes," replied Miss Peacher, "Only last night he said: 'Daughter, that new beaux of yours gives me much better cigars than the tightwad who used to hang around here.'"
Birmingham Age-Herald.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.
