Extravagance is one of those insidious habits that creep upon us and take away our money, waste our time and rob us of a comfortable old age. Those small sums that we fritter away from week to week would look very handsome a few years from now in the bank. After you have started a bank account, you will find that it is no sacrifice to deny yourself many of the useless pleasures that really eat up so vast an amount of money.

Do your banking with us. We pay four per cent interest on savings accounts.
