News Snapshots Of the Week

The long expected political crisis took shape in Germany when a member of the reichstag opened fire on Von Bethmann Hollweg asking for a statement of Germany's peace terms, which, it was reported, he refused giving; the resignations of Von Bethmann Hollweg, Dr. Alfred Zimmermann, the German foreign secretary, and others were said to have been immediately offered to the kaiser. The rapid advance of the Russians in Galicia threatened the Austrian stronghold, Lemberg. Pershing's troops pitched camp somewhere near the front in France, where they were furnished with helmets and gas masks. An embargo was placed by the president on shipping to neutrals. Vance McCormick, Democratic national chairman, was put on the embargo board to represent the state department. Receiving a commission in the British army, Kermit Roosevelt will take part in the Mesopotamia campaign. Colonel Green, the son of the late Hetty Green, married Miss Mabel E. Harlow of Chicago, giving her over \$600,000 as a wedding gift.

New Chemistry Teacher for Pacific University

The Chemistry department at Pacific University next year is to be in charge of Miss Alice Willard of Galesburg, Ill. Miss Willard is a graduate of Knox College and has her Master's degree in Chemistry from the same institution. She has had several years' teaching experience in secondary schools and in Knox College. The second semester of last year she served as Dean of Women while Dean Stayt was on leave of absence. Miss Willard comes with exceptionally strong recommendations. In addition to the work in Chemistry, Miss Willard will have charge of the Freshman history class.

Dean Simonds says, concerning Miss Willard: "She is well known to me as a young woman of exceptional qualities of character; earnest, capable and sincere. She has had much experience in positions of instruction and responsibility and her record has been excellent."

Professor Griffith, head of the Chemistry department of Knox College, says: "The work Miss Willard did for me in the laboratory was of a very high order and the students readily recognized her ability as an instructor. No one that you can secure will be more loyal to the institution nor more willing to give it faithful service. With unusual opportunities to learn of Miss Willard's qualifications, I gladly and earnestly endorse her application."

And President McClelland, formerly president of Pacific University, says: "I could hardly wish the old institution where I spent so many happy years a better piece of good fortune than to secure Miss Willard for the position referred to. Her rank as a student in Knox was among the highest and in recent years she has been an assistant in the depart-

ment of Chemistry at Knox. At different times, Professor Griffith, the head of the department, has spoken to me of the work she was doing, in the highest terms. We should be very sorry to give her up at Knox, not only because of her success in the department of Chemistry, but because of her strong influence for good among the students of the College generally. As indicating her qualities in this direction, I need only say that during the past semester she has very successfully filled the place of Dean of Women while Miss Stayt, our dean, has been in the east on leave of absence."

Presbyterians Split on College Merger

Eugene, July 26.—When the Oregon synod of the Presbyterian church adjourned for the night yesterday, a resolution, by Rev. John M. Skinner of Portland, providing that Albany College be either closed or merged with Pacific University, at Forest Grove, was under discussion. A strong majority of the church college committee favors the merger, but many of the delegates are so bitterly opposed to such a step that they threaten to invoke the aid of the courts, if necessary, to prevent the alliance. A committee which has been investigating the financial condition of Albany College reported a debt of \$73,913.95; that the endowment is impaired because all pledges have not been paid; that money has been borrowed against the endowment, in violation of the conditions; that plant and equipment are inadequate and that the school has an intensely competitive environment.

Another resolution asks that the management and Linn county show that the endowment of \$250,000 is invested and held in satisfactory form and \$100,000 raised for paying debts and meet-

ing immediate needs of the college. The various phases will be further discussed today.

Mrs. Rena Mooney Found Not Guilty

San Francisco, July 25.—Mrs. Rena Mooney, one of five defendants in the murder cases growing out of the bomb explosion here last summer, and which have excited world-wide interest, was acquitted late today. After a trial that had lasted nine and one-half weeks, the jury deliberated 51 hours before reaching its verdict of "not guilty." Seven other indictments are pending against Mrs. Mooney, but it is uncertain, according to the District Attorney, whether she will be tried again.

Thomas J. Mooney, her husband, and Warren K. Killings have been convicted and sentenced, respectively, to death and life imprisonment. Both have appealed. Israel Weinberg and Edward A. Nolan, the other defendants, remain to be tried.

"The bomb cases are at an end," declared Attorney Thomas O'Connor, of Mrs. Mooney's counsel. "The next trial will be that of Oxman."

Frank C. Oxman, an Oregon cattlemen, is accused of attempted subornation of perjury in connection with Thomas Mooney's trial, in which he was the chief witness for the prosecution.
