American Troop Ships Attacked
 Washington, Aug. 1.—Details of the attacks by German submarines upon the first expedition of American troops sent to France became known for the first time today when the report of Rear-Admiral Gleaves, commanding the naval convoy, was made public by Secretary Daniels. The first attack was made on Admiral Gleaves' flagship, leading the first group of the expeditionary force and at least two submarines were indicated to be engaged.

The Admiral stated the belief that the U-boats had knowledge of the coming of the troop ships and were on watch for them.

The second group of transports also was attacked by two submarines, one of which apparently was sent to the bottom by a bomb dropped from an American destroyer.

None of the troop ships were hit, the report says.

Will Tell It All
 The Portland Oregonian will next Sunday begin publishing Ambassador Gerard's story of Germany's reasons for bringing on the big world-war; her treacherous actions toward the United States while pretending to be this country's friend. Mr. Gerard was U. S. ambassador to Germany four years and he is better than anybody else able to write this startling story, which has been known to the administration for several months, but never before given to the public. The telling of the story in the Oregonian will take about six weeks. Order the Oregonian from H. R. Bernard, the local agent, and get every chapter of this history of Germany's duplicity. (Advt)
