

IT'S A DORT

The Dort is Often Called "THE BIG LITTLE CAR"

Because it possesses the same attractiveness of appearance, restful riding comfort, and power that is purchased at a much higher price in larger cars. In addition, the DORT is much lighter in weight. This means more miles to the gallon and lower upkeep.

EFFECTIVE MOTH TRAP

NEW DEVICE TO BE USED IN PLACE OF "BANDING" METHOD.

Attractive Place Afforded for Larvae to Spin Cocoons, and Prevents Escape of Insects—Wire Screen Is Used.

A codling moth trap has been devised by E. H. Siegler of the bureau of entomology, United States department of agriculture, to be used as a substitute for what is known as the "banding" method for destroying the codling moth. The banding method, in which a folded strip of burlap is wrapped around the tree trunk, demands a considerable amount of labor, and the new trap is designed to minimize this.

The trap affords an attractive place for the larvae to spin their cocoons, and it prevents the escape of the moths after they emerge from these. The

Codling Moth Trap.

trap, which consists of a burlap band covered by a strip of wire screen, is made as follows:

Strips of burlap six inches wide are folded into three thicknesses. The loose bark from the lower branches and trunk of the tree is removed and a strip of this burlap folded once around the trunk. It is held in place by large tacks, which should be driven in in such a way that the edge projects about one-fourth of an inch beyond the burlap. The burlap is then covered by black-painted wire screen with 12 meshes to the inch. This is cut into strips six inches wide and the edges of each strip are folded twice, allowing one-fourth of an inch to each fold. The strip of screen should be long enough to allow for an overlap of three to four inches when placed around the trunk of the tree. The wire screen is placed over the burlap band and tacked to the tree in such a way that both the upper and lower edges fit snugly against the bark. The projecting tacks used to fasten the burlap to the tree prevent the wire pressing against the cloth. To make sure that no moths may escape through openings along the edges of the trap or along the flap, a thin coating of pitch tar may be used. This material, when heated, may be applied readily with a brush.

It must be clearly understood that this trap is not a substitute for spraying, but merely an additional precaution. Nevertheless, some larvae will invariably escape, and the offspring of these are largely responsible for the damage to the fruit crop. By the use of the codling moth trap, in addition to thorough spraying, the majority of the unpoisoned larvae may be captured and injury by later broods will be materially reduced.

The Little Things Count.

Use your head as well as your hands, for it is the little savings that make up the profits at the end of the year. It takes sharpening of wits all the time.

SKIM MILK IN FEED RATION

Not Valuable as Fat Producer When Fed Alone on Account of Lack of Starch and Sugar.

(By JOHN C. BURNS.)

Skim milk, on the basis of its composition, is of the class known as protein feeds. Being too deficient in starches and sugars (carbohydrates) as well as fat, it is not very valuable as a fat producer when fed alone. When combined with corn or some similar feed in the proper proportions the protein of the skim milk supplies the deficiency of the protein in the corn, while the carbohydrates of the corn supply that deficiency in the skim milk, the two feed stuffs thus forming a balanced ration. This means a ration which contains the nutrients in proportions to meet the needs of the animal body for its best development.

Use for Coal Ashes.

Coal ashes are used largely for the physical effect of breaking up a compact, heavy soil. Such ashes do not take the place of fertilizer.

WRIGLEYS

The goody that is beneficial to teeth and stomach is best for children.

Wrigley's is Helpful

to all ages. It massages and strengthens the gums, keeps teeth clean and breath sweet, aids appetite and digestion.

The Flavor Lasts

HAVE YOU A SWEETHEART

Son or Brother in camp or training for defense? If so, mail him a package of Allen's Foot Ease, the antiseptic Powder for Tired, Aching, Swollen Feet, and prevents blisters and sore spots. Makes walking easy. Sold everywhere. 25c.

Indian and Firewater.

The Indian is by no means a stupid fellow and many of them, although not signing the pledge, are in their own way protecting themselves when under the influence of liquor. In Miami, Fla., (among other things a trading post for the Seminoles), the story is current that these Indians always paddle down the Miami river in pairs; that they do their trading, deposit their surplus cash with a certain merchant of tried honesty, and then go off for a debauch, one on the first day and the other the next, the sober fellow refraining from even a drop of "firewater" until his brother has finished his fun. When both have had their day, under the guidance and protection of a sober mate, they reclaim their funds from their merchant depository and paddle away to their homes in the Everglades.—Case and Comment.

A Merciless Suspicion.

"Why does that colleague of yours always choose the wrong side of a proposition?"

"I think he does so deliberately," replied Senator Sorghum. "He is determined not to leave public office poorer than when he entered it. The wrong side of a proposition is usually the one in which the graft is likely to turn up."—Exchange.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

CUTICURA COMPLEXIONS

Are Usually Remarkably Soft and Clear—Trial Free.

Make Cuticura Soap your everyday toilet Soap, and assist it now and then as needed by touches of Cuticura Ointment to soften, soothe and heal. Nothing better to make the complexion clear, scalp free from dandruff and hands soft and white.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv

He—We'll have to give up our intended summer trip. My account at the bank is already overdrawn.

She—Oh, John, you are such a wretched financier! Why don't you keep your account in a bank that has plenty of money?—Exchange.

BROKEN DOWN IN HEALTH

Woman Tells How \$5 Worth of Pinkham's Compound Made Her Well.

Lima, Ohio.—"I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman

after three doctors said I never would stand up straight again. I was a mid-wife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them." —Mrs. JENNIE MOYER, 342 E. North St., Lima, Ohio.

Women who suffer from displacements, weakness, irregularities, nervousness, backache, or bearing-down pains, need the tonic properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.
