FOREST GROVE SHOE STORE

I have been in the Shoe Game for a long time. Just now we are in the "Shoe Millinery" business. When it comes to asking \$7.50 to \$15 for a pair of \$3.50 to \$4.50 shoes, it's 'going some.' All above \$3.50 to \$5 is simply paying for a very foolish "fad." But, owing to conditions, we are putting in a line of the fancy stuff for \$5 to \$7.50. You pay \$9 to \$15 for them in the cities. If you must have them, we can save you from \$3.50 to \$5 per pair, at

Gas Ranges

The cut to the right shows the celebrated A-B Range. A-B is a contraction of the names Alexander & Berry, the founders of the A-B Stove company, and discerning purchasers have learned that it also stands for the Highest Development of the Stove Makers' Art.

A patented feature of the A-B Gas Range is the glass oven door, which enables you to see your baking all the time and does away with the necessity of opening the door, thus avoiding waste of heat and the chance of causing your baking to "fall" by the jarring of the oven door.

The broiling pans of the A-B gas range are pressed from solid, seamless sheet steel and then coated with a beautiful enamel, which does not peel, crack or become grimy. Grease has no effect upon it and soap and water will make it bright as new.

The White Porcelain Dirt Trays are as easy to clean as a new china plate.

The Burners--This is a vital part of the Range and nowhere does the A-B gas range show itself to better advantage. Patented features keep the flame from floating, consequently gas bills are materially reduced and the flame is always blue and hot.

We connect the stoves in your house, ready to work.
