- Quick, careful and courteous attention is given to all demands.

## The Convenience and Economy of Gas

### FOR COOKING

The universal fuel--no dirt, ashes or smoke. Intense heat applied directly to cooking utensils. The average bill in Portland for domestic purposes is \$1.80 per month.

### FOR WATER HEATING

An abundant supply of steaming hot water available without effort, inconvenience or discomfort. Sufficient hot water for a bath obtainable within 20 minutes, at an approximate cost of 2½ cents.

### FOR HOUSE HEATING

Uniform heat, thermostatic control, fuel paid for as used; no fires to build, no dirt, ashes or smoke. Fuel costs only slightly more than that of solid fuel, offset, however, by the many conveniences.

### FOR POWER

As compared with gasoline, the danger element is eliminated. Fuel is paid for only as used and the supply is limitless. Our special rate of 50c per thousand cubic feet makes gas approximately 50 per cent cheaper than gasoline.

(Continued next week)

### County School News

The annual Teachers' Institute will be held at the High School building in Hillsboro beginning October 31, at 1:00 p. m. and closing at 4:00 p. m. Friday evening, November 2.

All teachers are required to attend the full time. All the schools of the county are to be closed for those three days.

The United States Food Ad-

ministration Pledge Card Campaign is being carried on through the schools of Oregon during this week. The message has gone out from Washington asking all loyal citizens to make certain changes in their manner of providing for their families so that food can be supplied to our armies and those of our allies without any great hardship to any of us. This is a splendid opportunity to teach patriotism to our children. They are to be the bearers of this message into their homes. If they meet with cordial support they will be proud to have had a part in this great struggle for liberty and justice for all men; the fire of loyalty and patriotism will be kindled within their breasts. If they meet with coldness, indifference or opposition, the injury to them will be beyond repair.

I want to make a special appeal to every loyal citizen of Washington county to make it a point to find some way to help the teachers and the children to make a

success of this campaign.

Saturday, Oct. 12, the Kinton school raised an eighty-four-foot flag pole. The Kinton Grange assisted in the ceremonies, the school furnished appropriate music. Superintendent Frost gave an appropriate address.

The Helvetia school held a patriotic social to secure money to purchase a new flag. They are planning ceremonies at the raising of the new flag.

N. A. FROST,  
County Superintendent.

Monday morning, while Mrs. A. Dethlephs of Seghers was driving north on South Main street, one of her horses fell. Having two small children with her, the lady jumped from the wagon and took out the children. The horse regained his feet and the frightened animals ran to the S. P. depot, where they collided with a lamp post, breaking the buggy tongue to splinters. No other damage was done.

Public sale bills printed at the Express office.

## The Pacific Market
