Never Too Old to Be of Use

Emil Frick, the oldest living pensioner on the Southern Pacific's Honor Roll, has invested his savings in Liberty Bonds. Frick is 76 years of age, and entered the railroad service on November 21, 1864, several years before the golden spike linked California and the rest of the country with the first transcontinental railroad.

Emil Frick is a Frenchman by birth. "My heart yearns to be over there," he says simply. "I would give my life willingly for France if it would avail, but I figure that America can do more than I can for France, and so I lend to America my savings."

The veteran was for years an engineer on the old Seventh street steam railroad in Oakland. Now he makes his home in the city whose people he hauled for a quarter of a century.

There are twelve members of the Southern Pacific's Veterans' club who subscribed with Frick for the first Liberty Loan, and five or six others have applied for bonds of the Second Loan.

The Southern Pacific is assisting its pensioners to subscribe to the bonds in the same manner as its 45,000 regular employees.

Central Oregon to Be Pure Bred Stock Center

O. A. C., Corvallis, Oct. 22—Central Oregon promises to become famous as a pure bred livestock breeding center. Leading stockmen of Crook county have formed the Central Oregon Pure Bred Livestock association to promote the raising of pure bred livestock, establish a reputation for its products, and issue annually a directory of its members.

"The largest stockmen in Crook county are officers and directors of the association," says R. A. Ward,

Large Prune Trees

can be secured from us for Fall or Spring planting. Large Prune Trees are very scarce this year on account of the late spring and dry summer, therefore to insure getting the best trees money can buy do not fail to write us before buying SMALL trees elsewhere.

county agricultural agent, who is responsible for forming the organization. "Plans are already under way to issue our directory early in the winter. One condition of membership is that every member must engage in the raising of registered stock."

Mr. Ward reports that the use of cottonseed cake will be given a trial by the stockmen this winter, and already the first community shipment of two car loads has been received. Stockmen of this district are as progressive in marketing their surplus stock as in producing it, and Mr. Ward has just sent the checks out for a recent shipment, and took a community shipment of cattle to Portland, Oct. 20.
