Viewed Proposed Roads
In company with County Judge Reasoner and Commissioner Mat-

teson, John T. Fletcher of this city visited the county poor farm one day last week and, after dinner, made a trip over the two proposed routes between the county seat and Portland Mr. Fletcher says if the railroad crossing on the Oreco route could be eliminated, that would be an excellent route to Portland, as much work has been done on the roads. He was surprised at the mileage of rock roads in the eastern end of the county, as he had not visited that section for twenty years.

At the county farm Mr. Fletcher visited with Joseph Stewart, with whom he crossed the plains in 1864, and the old boys had quite a visit, talking over happenings of long ago.

Cross eyes are always a source of embarrassment to a child so afflicted and are often the cause of defective vision. John T. was taken to Dr. Lowe by his parents. Glasses prescribed by him straightened his eyes and gave him much better vision than he had ever enjoyed. Dr. Lowe's thoroughly accurate examination showed the cause and he knew how to make and fit the glasses which effectively removed it. If you have a cross eyed child don't fail to consult Dr. Lowe when he is at Forest Grove Hotel Friday, Nov. 9th. Remember the day and date. Scores of references.

Among Old Friends
The Sabetha (Kas) Herald of Oct. 18th contained the following, regarding the members of the Hesseltine family, former residents of that city:

"Sabetha will be delighted to learn that Mr. and Mrs. Roy Hesseltine and daughter Marjorie will remain in Sabetha a week. Roy is now president of the Vancouver National Bank, the largest financial institution in that city

with deposits of more than a million dollars. W. S. Short, vice-president of the bank, is a Kansas man. Mrs. Short and Mrs. A. J. Collins of Sabetha are sisters. Vancouver is an agricultural and industrial city. The former Sabetha banker seems to have gotten in on one of the real live banking properties on the coast. Personally Roy looks in splendid health and pep."
