

EVERY WOMAN'S DESIRE

in the domestic appointments of her kitchen will be satisfied only when she has an ALL-GAS KITCHEN.

With gas, cooking becomes a daily pleasure, not a burden. Gas ranges reduce the baking failures to a low minimum. The heat is easily regulated, just a slight turn of a valve.

Cooking and baking is done in half the time required by the wood or coal range, which means that she will have more time in which to rest. To be a good cook, a woman must be cheerful all the time.

Order a Gas Range and Satisfy This Desire Now

It Is a Consoling Fact

that with prices of all necessities climbing higher and higher at an alarming rate, GAS is one of the few commodities of everyday use that costs no more today than it did a year ago.

Food, clothing, shoes, hard fuels--all have doubled or trebled in price. Despite the increasing prices, the quality is not a particle better than before the advance, for in some cases it is even poorer, yet

Gas is High in Quality and Low in Price.

The Advance in the Cost of Materials

has not caused an increase in gas bills. We are hoping that it will not do so in the future. We want to continue to give the same service that we are supplying today--the same high heat unit for Gas Cooking and Heating at the same prices we are now charging.

We are glad that we have been able to thus far operate on this basis so that the burden of expense to the average home-owner will be lightened that much. Remember, also, that our appliances are of the highest quality and are offered to you at easy terms and moderate prices.

How to Build Up a Good Pasture

For the accommodation of some farmer friends, Warren Thatcher of this city recently wrote the Agricultural College for information concerning the best mixture for pasture, to which a member of the faculty replied as follows:

"Corvallis, Ore., Oct. 17, 1917. Mr. W. Thatcher, Forest Grove, Oregon.

"Dear Sir:

"Responding to yours of October 13: The English Rye grass is one of the very good grasses for the vicinity of Forest Grove for a good many of the lands there. I can recommend the following mixture of pasture grasses for the well-drained rolling land and for the fairly deep hill land of that vicinity:

English Rye grass	10 lbs.
Kentucky Blue grass	8 "
Orchard grass	5 "
Timothy	3 "
Red clover	3 "
White clover	1-2 "

I would advise that the mixture indicated above be seeded at the rate of 25 to 30 pounds per acre some time in the fall or in the very early spring. On some of the bottom lands that are more wet I would use Alsike instead of Red clover and would use about 4 pounds of Red Top rather than the 8 pounds of Kentucky Blue grass. On some of the hill soils that are rather thin and tend to dry out badly during the summer, I would use about

English Rye grass	8 lbs.
Kentucky Blue grass	5 "
Timothy	2 "
Orchard grass	2 "
Tall Oat grass	5 "
Red clover	2 "
White clover	1 "

I would seed this mixture also at the rate of about 25 pounds per acre. Very truly,

G. R. HYSLOP, Professor of Farm Crops.

Christmas Mail For American Forces Abroad

To the Public:—

The time is approaching to give thought to bringing Christmas cheer to the American soldiers and sailors abroad.

Arrangements have been perfected whereby the Christmas mail to the American Expeditionary Forces in Europe is to be delivered by Christmas morning.

Without the fullest co-operation on the part of the public, it will be impossible to accomplish this result.

The three essential respects in which the public can aid in assuring a happy Christmas at the front are: MAIL EARLY, ADDRESS INTELLIGENTLY AND PACK SECURELY. For this reason it is urgently requested that all persons having Christmas mail for the soldiers and sailors and the civilian units attached to the army in Europe observe closely the following directions:

1. Mails to reach the soldiers in France by Christmas morning must be mailed not later than November 15.

2. Every package must bear conspicuously the words CHRISTMAS MAIL, the complete address of the person for whom it is intended, and, in the upper left-hand corner, the name and address of the sender.

3. Every parcel must be so packed and wrapped as to admit of easy inspection by the postmaster. NO parcel will be dispatched to France which has not the postmaster's certificate that it contains no prohibited articles.

A. S. BURLESON, Postmaster General.

Patrons are cautioned against placing RED CROSS stamps or other stickers, other than stamps, on the ADDRESSED SIDE of mail matter, as such matter is thereby rendered unmailable. In the use of Christmas stickers care should be taken not to seal the parcels therewith, as sealed parcels are unmailable at the fourth class rate of postage. Pastors or stickers which resemble postage stamps are not permissible on the out side of any mail matter.

Parcels for the Expeditionary Forces abroad may not be registered or in-

Additional information concerning the preparation and mailing of parcels may be obtained from

R. P. WIRTZ, Postmaster.

Beginning today, the war tax on motion picture shows goes into effect and the management of the Star Theater will be compelled to charge children an extra cent and adults two cents extra. This tax goes to the government, and not to the picture house. An additional tax of 15c per reel is being borne by the Star management.

Seeking Pledges

Through the public schools, every family with children in school was on Monday and Tuesday supplied with pledge cards, asking the housewife to save as much on food as possible and today and tomorrow those families not reached through the schools will be supplied with cards. Those in charge of the work report a ready co-operation on the part of the housekeepers of the city.

Food Conservation Meeting

There will be a food conservation meeting, under the auspices of the Woman's club, at Langley hall next Monday, at 4 p. m., with demonstration of substitute foods. Bring your note books and pencils. Everybody is invited.
