## The First National Bank

of Forest Grove, Oregon

stands for methods which make financial institutions of positive value. We recognize that strength, above all else, is absolutely essential in the conduct of every bank; that an intelligent appreciation of the individual requirements of patrons is necessary to make the bank's service to them what it really should be. By steadfastly adhering to these principles, The First National Bank has enjoyed a very substantial growth, both in the number of depositors and in the volume of its deposits.

### HIGH SCHOOL NOTES

Everyone came back after the holidays ready for work again. Some of the faculty seemed to have had too gay a time and returned rather worn out. The regular work was soon resumed, however, and lost time is being made up by an extra number of long themes and reports.

It has been decided not to repeat the play "Mrs. Wiggs of the Cabbage Patch," which was presented by the members of the Drama club under the direction of Earl E. Fleischmann. Many people have expressed regret that it is not to be repeated, for all who were able to see it were so much pleased by the performance.

A number of inter-class basket-ball games have been played during the past week. The first of these contests was between the Seniors and Sophomores. The Sophomores have a number of men on their team who have had experience in playing basket-ball before, as have the Seniors, and altho the battle was hard fought the victory finally fell to the Sophomores. Another game played was between the Juniors and Seniors and here the Seniors partly redeemed their ruined reputation. The Seniors and Sophomores play on Tuesday night and both classes are anxiously waiting to cheer their valiant warriors.

On last Friday afternoon an assembly was held for the purpose of awarding the football monograms. Miss Mary Olmsted, president of the Students' association, awarded thirteen letters to the men who have participated in this activity and played enough games to earn them. After the grams were awarded the student body sang a number of songs and were then dismissed.

The high school debaters are practicing their speeches under the direction of the coach, Superintendent Inlow. The negative team, which is to remain at home this year, is to debate with Tillamook high school, and the affirmative team is to go to Beaverton. The two debates will be held on Friday, January 18th and it is hoped that a large number of townspeople will attend, and help the team along.

The Sophomore class sent some flowers to their classmate, Lucile West, who has been ill with pneumonia. Miss West is reported to be rapidly improving and the high school will soon see her return.

Beth Emerson was absent this week on account of illness.

# PREPAREDNESS IS NECESSARY IF AMERICA IS TO DO HER PART IN THE WAR!

To each and every Citizen of Western Washington County we desire to extend the season's greeting and to compliment the people on the splendid showing made in the late Red Cross Drive. From all reports, Oregon stands at the head of the United States in percentage of population enrolled; we have stood at the head of all that we have been asked to do in the past, but now we have to look into the future, and we want every farmer to read the following very carefully no matter whether he buys his goods from us or any other dealer.

The acreage of food crops in the United States in 1918 will be the largest in the history of the Nation. This fact, coupled with the scarcity of labor, will greatly increase the demand for farm implements and labor-saving machinery.

We doubt if Implement Manufacturers will be able to furnish all the implements required by the American farmers in 1918 and even if the supply should be sufficient, it is certain that all the implements required cannot be furnished in time to meet the farmers' need.

We want our customers to have all the implements they require to till the soil in 1918; therefore we are asking you to let us know what implements you will need during the coming year, so that we can make provision in ordering our stock.

Aside from the question of profit to us from the sale of implements, we are patriotic enough to desire that this community shall furnish the greatest amount possible of food supplies during the coming year and we know that more implements will be required to raise these increased food crops.

Furthermore, on account of the movement of troops and war supplies and the condition of railroad equipment, the transportation of goods of all kinds, either by freight or express, will be hindered more and more as the war continues. Therefore we want every one of our customers who has old machines he expects to repair before they are used, to do this repair work during the winter months, instead of waiting until spring or summer, when the machines are needed in the field.

You believe in preparedness and we are merely asking you to order the necessary repairs and fix those machines now. This will save expense and delay when you are ready to use the machines.

In closing, we wish to thank the people of this community for the patronage they have given us during the past year and we will do our best to give you satisfactory service, as in the past. We will not sell "shoddy" goods, so anything you get from us that is not satisfactory you can either return or we will make it right.

Wishing you a Happy and Prosperous Year,
