What the Teacher Sent.

Little Mary started to school on her second year last Monday. When she came home her mother asked: "Well, Mary, what did the teacher say to you after the long summer vacation?" "She said, 'Hello Mary,'" the child replied. "And what else?" asked the mother. "She said, 'When you go home please tell your mamma that I sent her my rewards,'" was Mary's second reply.

It takes Congress to settle a strike, but an unruly stomach is subdued by Garfield Tea.—Adv.

TYPHOID

is no more necessary than Smallpox. Army experience has demonstrated the almost miraculous efficacy, and harmlessness, of Antityphoid Vaccination. Be vaccinated NOW by your physician, you and your family. It is more vital than house insurance. Ask your physician, druggist, or send for "Have you had Typhoid?" telling of Typhoid Vaccine, results from us, and danger from Typhoid Carriers. THE CUTLER LABORATORY, BERKELEY, CAL. The Wealth of the Ukraine

The states of Ohio, Indiana, Illinois, Michigan, and Wisconsin have a combined area about equal to that of the new Ukrainian Republic. Putting it in another way, Ukraine, according to a native writer, is as large as the German empire with the state of Illinois annexed.

Mere area in itself signifies little, but the extent of land surface comprised within the limits of the new republic of Ukraine contains the most fertile parts of the old Russian empire. It is known as the "Black Earth Belt" and has been not only the granary of Russia but the greatest granary of eastern Europe. In 1914 one-third of Russia's total farm products came from this "Black Earth Belt," which is really Russia's wheat belt. Ukraine produces 80 per cent of Russia's crude sugar and 59 per cent of her refined sugar. The tobacco production of the region is relatively as large as that of sugar. The Ukrainian supplies about 50 per cent of the Russian live-stock output.

Not only is the Ukraine a great source of agricultural wealth, but in mineral resources it has been to Russia what the northern provinces of France, now overrun by the Germans, have been to that republic. Of coal, it has produced 70 per cent of the total Russian product, an equivalent proportion of pig iron, and of steel nearly as much. Manganese, mercury, petroleum, peat, phosphorite, and kaolin are other important mineral products of the Ukraine.—From "The Ukrainian Republic," in the American Review of Reviews for March, 1918.

Hurrah! How's This

Cincinnati authority says corns dry up and lift out with fingers.

Ouch ! ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of America's women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.—Adv.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets. They regulate liver, bowels and stomach.

Hard to Choose. "We hunch players have our troubles. Last night I dreamed about a hat." "That ought to be easy. Play the horse whose name suggests a hat." "Well, here's Chapeau, Turban and Hatteras, all in the same race."—Louisville Courier-Journal.

GRANDMAN EVER LET HER HAIR GET GRAY

She Kept Her Locks Dark and Glossy, with Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Garfield Tea is Nature's laxative and blood purifier; it overcomes constipation and its many attendant ailments.—Adv.

Misunderstood. "I hear that Burrows has come in for some money." "Then he'll have to go out without it as far as I am concerned."—Exchange.

STOP YOUR COUGHING

No need to let that cough persist. Stop the irritation, and remove tickling and hoarseness, by relieving the inflamed throat with

PISO'S

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

THE SIZE OF "SCOUT CITY"

The Boy Scouts of America has a membership of 295,768 boys properly registered in 13,787 troops, with 78,873 men council members and troop committeemen and scoutmasters.

If all the scouts and their leaders were in one city, then "Scout City" would rank eighteenth in the United States. This is larger than Minneapolis and almost as large as Newark or New Orleans.

The registered boy scouts alone could almost fill a city ranking with Indianapolis or Kansas City, and more than enough for St. Paul.

Counting the million or more scouts who have received during the past eight years the benefit of the scout program and who have entered man's estate, the Boy Scouts of America could move bodily into a deserted Cleveland and Boston and there would be a scout to represent every man, woman or child among the former inhabitants of both cities, or almost enough to fill Philadelphia.

There are 10,000,000 boys who could be scouts if there were men leaders enough. When the nationwide campaign of the Boy Scouts of America for scout leaders is over, it is expected that there will be room in the scout organization for 2,000,000 duly registered boys. "Scout City" then might well be as large as Chicago. The scouts would overrun the several states.

The "boy power" of this nation is a mighty thing. The organized boyhood of America is one of its greatest forces.

NATION-WIDE SCOUT SALUTE.

The big event each year in the calendar of the Boy Scouts of America is Anniversary week. This is observed each year from February 8 to 12, inclusive. This time it marks the eighth anniversary of the organization, which now has a federal charter.

At 8:15 o'clock on the night of February 8 the 295,000 scouts all over the country, wherever they were, rose and stood at salute and repeated the scout oath and renewed allegiance to the flag.

Greetings were carried to families with members in service. Flowers were sent to sick people in hospitals and in private families. Calls were made on local Red Cross chapters, war savings committees or other agencies doing war emergency work, with an offer of scout co-operation and service.

A CALL TO DUTY.

The Scouts Have a Mobilization Signal Used for Wartime Work.

THESE ARE REAL FOOD SCOUTS.

A troop of Boy Scouts of America has been organized in the Food Administration building at Washington, with Mr. Hoover and Col. H. Livingstone on the troop committee. Lewis L. Strauss, Mr. Hoover's secretary, is the scoutmaster.

Herbert Hoover, Jr., is one member of the troop, he having received his scout badge in England, direct from Ambassador Page, for particular service. Two more of the scouts belonged to Sir Robert Baden-Powell's organization in England.

There are 18 boys in the troop, and they are known as Troop No. 20.

The New Diet. "Why is it that man always wants to get up and spout after dinner. Is he training for a speaker?" "No, but he's been eating this new dish of whale steak."—Exchange.

To The American People

There is no foundation for the alleged violations of law attributed to our Company by agents of the Federal Trade Commission and I want to say emphatically that Swift & Company is not a party to any conspiracy to defraud the Government. Nor has Swift & Company been guilty of improperly storing foods or of making false entries or reports.

Conferences of packers, where prices have been discussed, have been held at the urgent request and in the presence of representatives of either the Food Administration or the Council of National Defense. And yet the packers have been accused of committing a felony by acting in collusion on Government bids!

We have done our best, with other packers, large and small, to comply with the directions of the United States Food Administration in all particulars, including the furnishing of food supplies for the U. S. Army and Navy and the Allies, now being handled through the Food Administration.

We will continue to do our utmost, under Government direction, to increase our production and assist the Food Administration. We consider that the opportunity to co-operate whole-heartedly and to our fullest powers with this branch of the Government is our plain and most pressing duty.

The Trade Commission Attorney has, by false inference and misplaced emphasis, given to disconnected portions of the correspondence taken from our private files and read into the Record, a false and sinister meaning with the plain purpose of creating antagonistic public opinion.

The services of the packers of the United States are most urgently needed, and I regret exceedingly that we should at this time have to spend our efforts in defending ourselves against unfounded, unproved, and unfair assertions such as are being daily made public.

L. J. Swift, President

Swift & Company, U.S.A.
