

How Do Your Sacrifices Compare With These?

The American Boy who goes to war gives up the position which means so much to his future, or the little business which has just begun to show promise of success.

He severs home ties, gives up home comforts, leaves behind parents, friends, wife or sweetheart. He faces the probability of being obliged to take up life anew when he returns; of losing all the advantages which years of hard work have won for him. He faces the possibility of coming back incapacitated for earning a living and of being dependent upon his friends or upon charity.

He faces the possibility of never coming home again.

What will he think, how will he feel, if we complain because we are asked to make a few sacrifices for him—sacrifices so insignificant when compared to his?

Show him that to invest in Liberty Bonds is not a SACRIFICE, but a PRIVILEGE—an appreciation of his sacrifice.

Farmers, ATTENTION!

The prices of Binder Twine have been settled by the Government; that is, the price the jobber shall charge the dealer.

We wish to protect all the farmers who want to take advantage of our offer. That is, we will take your order for twine at the following prices, to be paid for at the time of delivery. Our profit on twine is so small that we must refuse to give credit at the prices quoted.

This offer will hold good until about May 1st; not later, as our jobber will not agree to fill any order after that date.

This is a serious condition, farmers. Get busy and buy your twine from some responsible dealer, so you may be sure of having it when you are ready to cut your grain. Our prices are as follows:
