**THE VERY BEST TIME** to take  
Doctor Pierce's Golden Medical Discovery  
is now, if you feel that your  
blood is out of order. Don't wait until  
you have to cure disease; it's easier  
and better to prevent it.  
With the first blotches or eruption,  
or the dullness, weariness, and de-  
pression that are some of the symp-  
toms, you need this medicine. It will  
rouse every organ into healthy action,  
thoroughly cleanse and repair your  
system, and build up needed flesh,  
health, and strength. It's the only  
reliable blood remedy. In the most  
stubborn Skin or Scalp affections; in  
the worst forms of Scrofula; in every  
disease caused by a torpid liver or  
impure blood—it never fails to benefit  
or cure.

The machinery of the body needs to  
be well oiled, kept in good condition  
just as the automobile, steam engine  
or bicycle. Most people neglect them-  
selves. To clean the system take a  
pleasant laxative, such as Dr. Pierce's  
Pleasant Pellets. For sale by drug-  
gists—25 cents a vial.—Adv.

**Food for Fighters.**

**IF HAIR IS TURNING  
GRAY, USE SAGE TEA**  
Here's Grandmother's Recipe to  
Darken and Beautify  
Faded Hair.

That beautiful, even shade of dark,  
glossy hair can only be had by brew-  
ing a mixture of Sage Tea and Sul-  
phur. Your hair is your charm. It  
makes or mars the face. When it  
fades, turns gray or streaked, just an  
application or two of Sage and Sul-  
phur enhances its appearance a hun-  
dredfold.

Don't bother to prepare the mix-  
ture; you can get this famous old re-  
cipe improved by the addition of other  
ingredients for 50 cents a large bottle,  
all ready for use. It is called Wyeth's  
Sage and Sulphur Compound. This  
can always be depended upon to bring  
back the natural color and lustre of  
your hair.

Everybody uses "Wyeth's" Sage and  
Sulphur Compound now because it  
darkens so naturally and evenly that  
nobody can tell it has been applied.  
You simply dampen a sponge or soft  
brush with it and draw this through  
the hair, taking one small strand at  
a time; by morning the gray hair has  
disappeared, and after another applica-  
tion it becomes beautifully dark and  
appears glossy and lustrous. This  
ready-to-use preparation is a delight-  
ful toilet requisite for those who de-  
sire dark hair and a youthful appear-  
ance. It is not intended for the cure,  
mitigation or prevention of disease.—

**INCREASE EGGS AND POULTRY**  
United States Department of Agricul-  
ture Urges Every Farmer to  
Keep 100 Hens.

To increase the production of poultry  
and eggs in the measure necessary  
to meet the demands for them, the  
United States department of agricul-  
ture is urging every farmer to keep at  
least 100 hens, and to increase the egg  
production for each hen from the present  
average of about 70 to the more  
satisfactory average of 100 eggs to the  
hen.

**ATTENTION TO SMALL CHICKS**  
Hens Often Are Restless After Part of  
Eggs Have Hatched—Guard  
Against Lice and Mites.

(Prepared by the United States Depart-  
ment of Agriculture.)  
When the chickens begin to hatch  
the sitting hen should not be disturbed  
unless she is restless and steps on or  
pecks the chickens. In this case the  
chickens should be removed as soon as  
dry and placed in a basket lined with  
flannel or some other warm material  
and the basket placed near a fire or in  
some warm place until all the eggs are  
hatched. Another plan is to remove  
the eggs from the restless hen and

Proud Mother Hen With Chicks.

place them under a more quiet one  
whose eggs are hatching at the same  
time.

When the eggs hatch unevenly, as is  
frequently the case, those which are  
slow in hatching may be placed un-  
der another hen. Hens often are rest-  
less after a part of the chickens are  
out, which allows the remaining eggs  
to become cool at the very time when  
steady heat is necessary to successful  
and strong hatches. Remove the egg  
shells and any eggs which have not  
hatched as soon as hatching is over.

The mother hen should be fed as  
soon as possible after the eggs are  
hatched, as feeding tends to keep her  
quiet. Hens that are not so fed will  
sometimes leave their nests. In some  
cases it is best that the hen remain  
on the nest and brood the chickens for  
at least 24 hours after the hatching  
is over.

It is important at this stage of in-  
cubation to guard against lice and  
mites. Before the hen and her chick-  
ens are removed to a brooding coop  
she should be dusted with a good in-  
sect powder. This should be repeated  
every two weeks or as often as is ne-  
cessary until the chickens are weaned.  
If lice become thick on the chickens or  
if they are troubled with "head lice"  
a very little grease such as lard or  
vaseline may be applied with the fin-  
gers on the head, neck, under the  
wings and around the vent. Great care  
is necessary, however, not to get too  
much grease on the chickens as it will  
stop their growth and in some cases  
may prove fatal.

**BEST RESULTS FROM CHICKS**

Those Hatched Early Are Stronger and  
More Vigorous Than Those to  
Come Out Later.

(Prepared by the United States Depart-  
ment of Agriculture.)

All things considered the early  
hatched chicks give far the best re-  
sults. As a rule they are stronger and  
more vigorous than those hatched later  
in the spring. They are produced from  
eggs laid while the hens are in their  
best breeding condition. After a long  
period of laying hens lose something  
of their vitality and their capacity to  
transmit vigor to their offspring, and  
so late-hatched chickens are, on the  
whole, decidedly inferior to early  
hatched in inherited vigor and constitu-  
tion.

Because they are more thrifty and  
vigorous, early-hatched chickens make  
quicker, better and cheaper growth  
than late chickens. Thrifty chickens  
get more from a given quantity of feed  
than others. Weak and undersized  
chickens often consume as much feed  
as much larger and better-developed  
birds and still make no perceptible  
growth.

**YES! MAGICALLY!  
CORNS LIFT OUT  
WITH FINGERS**

You corn-pestered men and women  
need suffer no longer. Wear the shoes  
that nearly killed you before, says  
this Cincinnati authority, because a  
few drops of freezone applied directly  
on a tender, aching corn or callous  
stops soreness at once and soon the  
corn or hardened callous loosens so it  
can be lifted out, root and all, with-  
out pain.

A small bottle of freezone costs  
very little at any drug store, but will  
positively take off every hard or soft  
corn or callous. This should be tried  
as it is inexpensive and is said not  
to irritate the surrounding skin.

If your druggist hasn't any freezone  
tell him to get a small bottle for you  
from his wholesale drug house. It is  
fine stuff and acts like a charm every  
time.—Adv.

**Sounded Like That.**

The nurse in a well-to-do family  
overheard the little son of the house  
telling his sister how he had hid be-  
hind the portiere and spied on big  
sister and her beau.

"Oh, tell me what they did!" cried  
little sister.  
"It was such fun," chuckled the boy.  
"The big chump flopped down on his  
knees and then he said: 'Answer me,  
Clara; I can bear this expense no  
longer.'"—Boston Transcript.

**Good Reason.**

"Why," asked the city boarder on  
the farm to the farmer as he scattered  
grains in the barnyard, "don't you  
husband all that corn?"  
"I can't," replied the farmer; "it is  
hecked."—Exchange.

**Another Kitchen Invention.**

is going to introduce another innova-  
tion in the average kitchen."  
"What is that?"

"No. He doesn't get into the big

"I have great respect for that wo-

"Why so, Flubdub?"  
"She refused to marry me once."—

**A Little Mixed.**  
"Your husband is always chaffing,

**WOMAN'S NERVES  
MADE STRONG**

By Lydia E. Pinkham's  
Vegetable Compound.

Winona, Minn.—"I suffered for more  
than a year from nervousness, and was  
so bad I could not  
rest at night—  
would lie awake and  
get so nervous I  
would have to get  
up and walk around  
and in the morning  
would be all tired  
out. I read about  
Lydia E. Pinkham's  
Vegetable Com-  
pound and thought  
I would try it. My  
nervousness soon  
left me. I sleep  
well and feel fine in the morning and  
able to do my work. I gladly recom-  
mend Lydia E. Pinkham's Vegetable  
Compound to make weak nerves  
strong."—Mrs. ALBERT SULTZE, 605  
Olmstead St., Winona, Minn.

How often do we hear the expression  
among women, "I am so nervous, I can-  
not sleep," or "it seems as though I  
should fly." Such women should profit  
by Mrs. Sultze's experience and give  
this famous root and herb remedy,  
Lydia E. Pinkham's Vegetable Com-  
pound, a trial.

For forty years it has been overcom-  
ing such serious conditions as displac-  
ements, inflammation, ulceration, irreg-  
ularities, periodic pains, backache, diz-  
ziness, and nervous prostration of  
women, and is now considered the stan-  
dard remedy for such ailments.
