

Wise in His Generation

JOHN ADAMS, second president of the United States, won fame as a financier when he borrowed \$2,000,000 from Holland. He was a firm believer in banking.

Every man who hopes to be a success in life has a bank account. Make up your mind to place a certain amount of your business profits or income in this bank, where it will increase. We invite an inspection of our banking methods.

Ever "Shop" for Shirt Comfort?

If not, it's well worth trying, because there is such a thing as true SHIRT COMFORT—and it can be bought.

The Shirt you have on now—does it feel "pully" across the shoulders? Do you feel like your collar was too high?

Yes? Then you were more interested in buying just a shirt than in buying real comfort, plus a shirt.

snap with style; the patterns are bright and "nifty" and every little detail is just right for appearance. But the unseen thing—real comfort—is built into these shirts. You may not see it, but you can feel it the moment you put one on your back.

Come here and buy one Beau Brummel Shirt, wear it, then decide whether you want just a shirt, or another Beau Brummel.

Big Musical Event

Next Tuesday Night

One of the interesting features of the Commencement week at Pacific University, Forest Grove, this year will be the Commencement Concert on June 4th. The Graham-Christensen string quartette will give two numbers and the music lovers of Forest Grove are looking forward to this feature as a rare treat.

The Pacific University Orchestra, augmented by members of the Portland Amateur Orchestra, F. Starke, oboist, and others of the Portland Symphony Orchestra, will give some of the music from Rosamunde, by Schubert, under the direction of William Wallace Graham.

The closing number will be the Cantata "Fair Ellen" by Bruch, with orchestral accompaniment, Mr. Graham conducting. This will be sung by a chorus of fifty voices Miss Goldie Peterson and John Claire Montie of Portland taking the solo parts.

A Strong Appeal for Wheat Conservation

Hillsboro, Ore., May 27th, '18 To the People of Washington County:

The Food Administration's request for a wheatless week comes as a direct result of the discovery that the available supply of wheat in farmers' hands is less than half of the estimate of April 1st.

Dr. Kerr, just returned from a conference at Washington with heads of the Food Administration and other war boards, also with representatives of the Allied nations, quoted the flat statement of Lord Rhonda, the British food

The Chevrolet

"Four-Ninety" is Popular for It is Complete.

The thought of the Chevrolet "Four-Ninety," with its electric starting and lighting equipment, "hits home" more emphatically when you have another kind of car, without this important equipment.

And the Chevrolet is not a cheap car in any respect.

It is not turned out under great pressure in enormous quantities. Each car is given special individual attention, and, for this reason, the Chevrolet "Four-Ninety" compares favorably with cars in the higher-priced class.

You should own a "Four-Ninety."

You will like it and will be pleased with it, for it is complete in every respect. The new series of this type is equipped with demountable rims, one-man top, tilted windshield and has a number of other refinements.

And the price is not prohibitive.

Let us demonstrate this model today. Let us show you what it is able to do. Let us put it to power and speed tests.

And, in addition, let us tell you about its splendid economy record. The Chevrolet is a miser when it comes to using gasoline.

We will gladly demonstrate at your convenience.

controller, that "If America cannot furnish us another 45 million bushels of wheat between now and harvest, I cannot be responsible FOR OUR ALLIES REMAINING IN THE WAR."

The reference was doubtless to France and Italy.

Our people ought to "get that," ought to come to a full realization of its awful significance.

Russia collapsed. As a result, a thousand American boys will go into the battle pits of Europe. Thousands of American homes may show a golden star on the service flag in the window, and thousands of American Mothers, Fathers, brothers, sisters and sweethearts may mourn the sturdy boys who will return no more.

What, then, if France or Italy, their morale weakened by four years of awful punishment, should collapse because of hunger?

The heroic French, who from a population of thirty five million, have placed six million men in arms, of whom now nearly a million and a half sleep in soldiers' graves, have made sacrifices for home and country far beyond the

record of all history, but we must remember that there is a breaking point to the most heroic soul—the limit of the power of flesh and blood to endure longer.

They have been, and are, fighting our battle, the battle of all free people. Suppose they break.

Can you think of that calamity without a sinking of the heart?

It is wheat now, or slaughtered American boys later. These men and women of Washington county who selfishly stuff themselves with wheat, and refuse to deny their taste; who place their stomachs above their patriotism; who "feed the substitutes to hogs;" who side-step and quibble and dodge, will bear the burden of Cain if our Allies fail.

Those who give their sons to save this government will not forget.

I believe that the loyal people of this county, when they understand, will gladly give every kernel of wheat and pound of flour to save the cause.

Yours truly,
CHAS. E. WELLS,
County Food Administrator.

GOSSIP! Not many of our customers listen to gossip. Of that we feel sure. In these history-making days the average mind cannot grasp the facts that are presented daily and certainly have no time for gossip.

We read of movements started in different parts of the country to compel idle hands to work. Any restraining influence that would at this time make idle tongues rest would be equally commendable. If you hear that our service is less dependable than in the past treat the remark as gossip. We are equal to a great deal more than has so far been demanded of us.
