

## Modern War is decided by Organization

The problem of our country today is the organization of its resources and industries. The Federal Reserve System is the banking organization which is caring for the nation's financial needs. Support it by dealing with a member bank—

**SUGAR MUST BE SAVED!**

A teaspoonful means nothing, you say. Yet a heaping teaspoonful saved each meal for 120 days for each of the 100,000,000 persons in the United States makes a pile as big as the Woolworth building enough to supply the entire armed forces of the nation.
