This is a good year for stacking hay. The practice of cutting hay, raking it, and curing it in cocks where it is left until it is baled saves some labor, but is an expensive and wasteful process from the standpoint of forage. About Ready for the Big Celebration

The people having the Balm Grove Fourth of July celebration in hand are busy these days getting the grounds in shape, filling out the program and other details for a big celebration, which starts at 10 a. m. and lasts as long as the people want to stay. Present indications are that if the weather is favorable, there will be a monster crowd in attendance. The fact that the profits from the celebration will go to the Red Cross is influencing many people who do not usually care to leave town for a celebration and this city will send a big delegation.

The committee in charge is composed of Fred Wilson, Chas. Bamford, Clyde Ryan, Walter Sargent, Claude Smith, R. B. Lilly and "Bud" White, all hustlers.

Oddly-Shaped Feet Now Get Fitted

Two out of every 1000 men in the Army have to have their shoes made to order. In several camps entire regiments have had their feet measured, and hundreds of drawings were made of odd shapes and sizes. At the present time the Army uses between 2,000,000 and 3,000,000 pairs of shoes a month.

Facts brought out in tests seem to prove that men in the present Army are larger than those serving in previous wars. Not only is this shown by the larger sizes of shoes called for, but by the larger sizes of outer clothing that is being required. Records in the Quartermaster Corps show that a size larger, on the average, is being demanded in blouses, shirts, and breeches than have ever before been used.

Seven Reasons for Saving Money

1. Save for your country's sake, because it is now spending a million a day, and must find most of the money out of savings.
2. Save for your own sake, because work and wages are plentiful and, while prices are high now, a dollar will buy more after the war.
3. Save because, when you spend, you make other people work for you, and the work of everyone is needed now to win the war.
4. Save because, by saving, you make things cheaper for everyone, especially for those who are poorer than you.
5. Save, because by going without, you relieve the strain on ships, docks and railways, and make transport cheaper and quicker.
6. Save because, by saving, you set an example that makes it easier for the next man to save. A saving nation is an earning nation.
7. Save because, every time you save, you help twice, first, when you don't spend, and again when you lend to the nation.

How Far Behind the Boys Are You?

One of Pershing's men, returned from France, was speaking:

"When I left for home," he said, "the boys over there were feeling pretty blue, because they thought that you here in America were not backing them up as you ought. We had a pretty bit of winter over there. The weather was the coldest France has known in years. Many of us were without proper food and clothing. Some were even without shoes. None of us were complaining, though, but the feeling that when we were doing so much for you, you were not doing everything in your power to back us up some times bit in pretty hard."

"We felt like the little Irishman felt in a Y. M. C. A. hut one evening. A bunch of us had gathered there to listen to a speaker from America. During the course of his lecture he said:

"We in America are behind you boys to a man."

"Then my little Irish friend got up. 'Yes,' he said, 'you're all behind us, all right, a h— of a ways behind—4,000 miles.'"

Are you that far behind 'the boys'? If you are, move up closer. Put all your energy into this War Savings Campaign. Save to the utmost of your ability and put your savings into W. S. S. and get everyone else to do the same. Make "the boys" in France realize that while the mileage may be great, it is easily spanned by your willingness to help.
