

Modern War is decided by Organization

The problem of our country today is the organization of its resources and industries. The Federal Reserve System is the banking organization which is caring for the nation's financial needs. Support it by dealing with a member bank—

WAR THRIFT NOTES

In England they say, "Every shilling wasted stabs a soldier in the back."

If you actually knew that by buying only those things you absolutely needed and by putting your savings into War Savings Stamps you could save lives, would you do it? Take the word of the President that you do save lives when you do this.

It is not enough to deplore what the Germans have done. That will not hurt the Germans; they don't care what you think of them. Help your Government to fight them. That is the only thing that counts with a German. When you save and buy War Savings Stamps you attack a German in the place where it hurts.

Samuel Gompers says: "There are still many to whom this world cataclysm has so little meaning that they are still pursuing luxuries and self-indulgence." Are you one of these people, or do you save to the utmost of your ability and buy War Savings Stamps?

We expect, as a matter of course, that our soldiers and sailors will do as they are ordered. We oftentimes do not think it necessary to do what our Government asks us to do. Why should we not be just as prompt in our response? Our men are ordered to expose themselves to the guns of the Huns. We are asked only to save and to loan our savings to the Government. Can we refuse this request?

Some one has said: "If one of our boys hesitated as long in going over the top as some people do in buying Liberty bonds or War Savings Stamps, he would be court-martialed and shot for cowardice. And if the same punishment were meted out to noncombatants for financial cowardice an awful lot of people would be shot at dawn."

Your part in the war is to produce as much as possible, consume as little as necessary, and loan your savings to the Government. Are you facing your task as cheerfully as our fighting men face theirs?

If you despise what the Germans do, let your savings help fight them.

He is a poor sort of a patriot who can not find some way to economize in order that he may buy War Savings Stamps, and in so doing give the Government more money, labor and materials with which to fight the war.
