THIS IS THE CELEBRATED ANKER-HOLTH SELF-BALANCING CREAM SEPARATOR

What This Separator Will Do.

It will increase your dairy profits 30 to 40 per cent if you are skimming your milk by the old hand method.
IT WILL SAVE YOU TIME, as the bowl, discs, and tinware can be thoroughly cleaned in five minutes.
IT WILL SAVE LABOR, as it is the easiest running cream separator in the world.
IT WILL SAVE REPAIR EXPENSE, because it has fewer mechanical parts than any other separator.
IT IS THE ONLY SEPARATOR where the skimmed milk is delivered from the top of the bowl and the cream from the bottom. No intermixing.
IT IS SELF-OILING, and so clean and sanitary that it could even be placed in your parlor without disagreeable results.
IT IS BUILT WITH THE ACCURACY of a watch and the strength of a motor.
THE ANKER-HOLTH SEPARATOR will skim more cream, of a higher quality, that will make more butter, than any other cream separator on the market, and we have the proof to sustain this statement.
 We want you to know more about this great Cream Separator—Write for descriptive catalogue.

Laugh When People Step On Your Feet
 Try this yourself then pass it along to others. It works!

Ouch ! ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.
 He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of America's women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.—Adv.

POULTRY

MEAT SUPPLY FROM POULTRY
 Imperative That Productive Stock Be Rather Largely Increased During Current Year.

(Prepared by the United States Department of Agriculture.)
 Meat can be produced from poultry more quickly than from any other source. One of the necessities imposed upon the United States by its entrance into the world war is to produce more meat than it has ever produced before. This is essential not only to meet its own greater needs because of being on a war basis, but also to save the countries with which it co-operates in the war from defeat through lack of food.

Meat is one of the most essential of food products. Of such meats as can be cured and kept in compact form, larger quantities than ever before must be sent to the armies overseas, and the proportion of these exports to the total production in the United States is likely to increase steadily and even rapidly, as larger armed forces from this country are sent to the fighting front in Europe.

In order to leave available for the forces overseas as large a proportion as possible of the output of cured and compact meats, it is desirable that there be a decided increase in both the home production and the home consumption of white meats such as poultry. To that end it is imperative that the productive stock on general farms and in the back yards of the nation be rather largely increased during the current year. It has always been and will always be true that the great bulk of this country's poultry is produced not on specialized poultry farms but in the dooryards and farm lots of the diversified farms. Establishments devoting their attention exclusively to the production of poultry have been and will continue to be of rather large importance, but they can hardly be looked to or any very great part of an emergency increase in production sufficient to constitute a noticeable factor in feeding the world at war. That demand upon the nation's potential production capacity can be met, however, by the farmers and home makers of the country without any sort of strain and with compensation in poultry profits more than commensurate with the outlay of money and effort.

KEEP BROODING COOP CLEAN

Give Chick's Good Overhauling Once a Week—Spray Thoroughly for Mites.
 (From the United States Department of Agriculture.)
 The brood coop should be cleaned at least once a week and kept free from mites. If mites are found in the coop, it should be thoroughly cleaned

Make the Little Chick's First Home a Comfortable One.

and sprayed with kerosene oil or crude petroleum. From 1 to 2 inches of sand or dry dirt or a thin layer of straw or fine hay should be spread on the floor of the coop. Brood coops should be moved weekly to fresh ground, preferably where there is new grass. Shade is very essential in rearing chickens, especially during warm weather; therefore, the coops should be placed in the shade whenever possible. A cornfield makes fine range for young chickens, as they secure many bugs and worms and have fresh ground to run on most of the time, due to the cultivation of the ground, and have abundant shade at the same time.

POULTRY RAISING IS A DUTY

Farmers and People in Cities Should Keep Enough Hens to Supply Table With Eggs.

(Prepared by the United States Department of Agriculture.)
 If poultry is to play the part that it should play in feeding the nation and winning the war, not only will the deficiency created during the past year have to be made good, but there will have to be added something to the average as it stood before the 1917 depletion began. The duty and the opportunity falls upon general farmers and upon families in cities and towns who have enough back-yard space—and that means much less space than may be ordinarily considered necessary—to keep enough hens to supply their own tables with eggs.

"At Chattanooga," said a veteran of the Civil war, "one of the men in my company left early in the action and no one saw him till after the battle, when he appeared in camp un wounded and unabashed. Some of the boys accused him of running away, but he wouldn't admit it."
 "I only retreated in good order," he declared.
 "I heard of the matter, and a few days later I asked him if he had any idea how fast he had 'retreated.'"
 "Well, I'll tell you, cap'n," he said. "If I had been at home and going after the doctor, folks that see me passin' would have thought my wife was right sick!"—Exchange.

Middle Aged Women

Are Here Told the Best Remedy for Their Troubles.

Freemont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work." Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. GODDEN, 925 Napoleon St., Fremont, Ohio.
