Macadam and Rock Work Being Rushed

Ben Heesacker, in charge of the macadam work between Forest Grove and Banks, expects to finish the work for 1918 by the first of next week, the fund by that time being exhausted. In the neighborhood of ten thousand dollars will have been expended, and another year will see the road completed between the two places. The matter of hauling is a big matter, as the trucks can get the rock to the roads at a small per cent. of the cost by teaming.

About \$9,000 will be spent on the North Plains road, and about \$10,000 on the Banks, Forest Grove route.

Freights on the S. P. being higher this year than last has cut into road affairs, a car now costing \$34.43 as against \$10 per last season. The trucks will be used on all future work, and this will mean a considerable saving. Laurel will furnish the rock for the Hillsboro Laurel work.—Hillsboro Argus.

In other types of motors—the T-head and L-head types—gasoline is exploded in a side chamber—the force or impulse must travel a short distance at an angle to reach the piston head. Thus it strikes a glancing blow. It has the same ineffectiveness of a blow delivered on the edge of a nail-head. It is this difference in motors that makes possible low Chevrolet gasoline consumption. It means all the difference in the world in your pocket-book. And it explains why people who have a respect for money select the CHEVROLET, entirely aside from the initial low price of the CHEVROLET. If this difference means anything to you, a demonstration of any CHEVROLET model will prove its genuineness. And the demonstration is gladly yours any time you request it. A House Party

Prof. Inlow and family have returned from a seven-weeks' sojourn at the coast. During last week their pleasant home was graced by a house party. A grandfather, grandmother and auntie, from Cottage Grove, came; as did also a sister and her husband and their son, from Yakima. The lady has sung with great acceptability in Forest Grove and she gave much pleasure by singing at the time of the present visit. The family must have a musical trend, for Mrs. Inlow herself sings, to the great pleasure of all who hear.

The buttons for the Fourth Liberty Loan drive are arriving. They are slightly smaller than the last. The design is a rectangle of white bordered with red and crossed by four blue stripes.
