SPEEDOLINE

This scientific preparation gives increased power to gasoline motor engines, removes carbon from the combustion chambers and valves and prevents its further formation, and reduces the gasoline consumption more than one-fourth. It is an indispensable necessity for every automobile owner. It makes three quarts of gasoline run your car further than a gallon of plain gasoline will run it. One quart of Speedoline costs only \$1.50 and will treat about 160 gallons of gasoline and make it give more mileage than 213 gallons of plain gasoline, thus saving you more than 53 gallons of gasoline, besides removing carbon from your motor and giving you improved service. When you eliminate carbon from your motor you are rid of 75 per cent of your motor troubles, and the improved service you will get and the smoothness with which your motor will run will surprise you. It is worth many times its cost for this alone, to say nothing of the large gasoline saving.

The same thought and attention given to business affairs which enables you to possess a car should impel you to adopt that which will reduce your gasoline bills more than one-fourth, give your machine greater power, prolong the life of your engine, eliminate three-fourths of your motor troubles and give you the pleasure of having an easy-starting, silent, easy-running motor, and one that will take the hills on high.

Speedoline is the only preparation of the kind on the market whose manufacturers stand back of it with a One Hundred Dollar Reward if it doesn't make good. We make this offer payable to any one who can prove that Speedoline will not do what we claim for it or that it will in any way injure the finest motor or carburetor, because we know Speedoline has all the merit we claim for it. Beware of Imitations.

Will be sent to any address by prepaid express
