THE SECOND BATTLE OF SARATOGA.

The most thorough and judicious battle of Saratoga in the list of the seven decisive battles of the world. It was not great in the number of

men engaged, nor in the number killed or wounded, but great in its results. It made Yorktown possible, and all the grand and glorious triumphs of human thought and human progress that have resulted from the establishment of the great American republic, are due to the issue of the struggle between the British and American armies on that eventful field.

All that the world owes, or has owed, for the last hundred years, to giment and that of Col. Dearborn's was killed. the fact that there is a republic in America, was secured to it by Saratoga. It broke the shackles that bound and enslaved the human mind, secured social and political freedom, and, in short, changed the history of the world.

The culminating point in this derisive conflict was reached when tested fight, late in the afternoon of Octobor 7, 1777.
