

Mr. Cleveland has sent a good financial message to congress. It is an excellent grouping of facts already in the possession of the people, put in so strong array that even Populists can't deny them, though they are like Oliver Goldsmith's schoolmaster.

But whatever good Mr. Cleveland may have accomplished by his very excellent message on finance, and whatever confidence it tends to restore is destroyed by the paragraph touching tariff legislation.

THE NOTOR LINE.

The petition of the Portland-Hillsboro motor line will be taken up by the county court today for final action. The petitioners ask for a right of way within the 60-foot limit of the county road.

Of course some rights will be surrendered by the county, for instance jurisdiction over the full sixty feet, but it seems to the INDEPENDENT that the gains to the general welfare much more than offset the losses.

The competition that this proposed road will make will be of very great benefit to the whole community. The court, exercising usual restrictions, may safely grant the desired right of way.

J. B. Grant, of Colorado, who is at the head of the Grant Smelting Works of Denver and Omaha, favors as a substitute for the present silver purchase law, and if it is repealed, the establishment of a ratio of about 20 to 1 and the coinage of such silver as is offered.

The "truce" that was established by the act of July 14, 1890, being terminated by the repeal of the Sherman purchase section, the same "agitation" will be taken up again and the whole machinery of the Democratic party used to further such "agitation."

Some critics are so ill-informed as to say that when Pres. Cleveland got to Washington he found that his message did not suit and he had to work it over again. They say this is the reason why it was not sent to Congress on Monday.

PRESIDENT'S MESSAGE.

TO THE CONGRESS OF THE UNITED STATES: The existence of an alarming and extraordinary business situation, involving the welfare and prosperity of all our people, has constrained me to call together in extra session the people's representatives in congress, to the end that through the wise and patriotic exercise of the legislative duty which which they are so justly charged, the present evils may be mitigated and the dangers threatening the future may be avoided.

Mr. Cleveland has sent a good financial message to congress. It is an excellent grouping of facts already in the possession of the people, put in so strong array that even Populists can't deny them, though they are like Oliver Goldsmith's schoolmaster.

But whatever good Mr. Cleveland may have accomplished by his very excellent message on finance, and whatever confidence it tends to restore is destroyed by the paragraph touching tariff legislation.

Of course some rights will be surrendered by the county, for instance jurisdiction over the full sixty feet, but it seems to the INDEPENDENT that the gains to the general welfare much more than offset the losses.

The competition that this proposed road will make will be of very great benefit to the whole community. The court, exercising usual restrictions, may safely grant the desired right of way.

will not be in a position to grin a hearing in favor of such an arrangement so long as we are willing to continue our attempt to accomplish the said single hand.

BOARDING THEIR MILLIONS. The knowledge that business circles among our people that our government cannot make its fiat equivalent to intrinsic value, nor keep inferior money on a parity with superior money by its own independent efforts, has resulted in such a lack of confidence at home in the stability of our currency values that capital refuses its aid to new enterprises, while millions are actually withdrawn from the channels of trade and commerce to become idle and unproductive in the hands of timid owners.

TO ISSUE SILVER CERTIFICATES EQUAL IN amount to silver bullion in the treasury purchased under the act of July 14, 1890, in excess of the amount necessary, at its exchange value, to redeem treasury notes issued under that act, and to use the same to provide for any deficiency in the revenues of the government, the surplus of such certificates to be used in the purchase of 4 per cent. bonds at their current value not exceeding 12 per cent. premium.

TO GIVE IMMEDIATE RELIEF. Stewart said he desired to call the attention of the finance committee to the latter bill. Its purpose was to give immediate relief. His bill provided, he said, for the issuing of \$100,000,000 of treasury notes to pay for bonds to be deposited by the banks as security for notes. Notes could be afterward retired with bonds that would give about \$150,000,000 of currency and would give immediate relief.
