The new plan also involves the method of encouraging manufactures by giving what is called 'free raw materials' so that what goes into the mill pays no taxes and what goes into consumption pays allthe taxes. It unfortunately happens, also, that free raw material is another man's finished product. Tuesday last a watch was taken to a Salem Jeweler for repair, the owner remarking how cheap such a watch was at \$6.50. The jeweler informed Marshal Minto of the matter, and upon inquiry it was found that the watch had been sold to the person bringing it in for repair by a fellow loating around town.
