"Some time ago, I caught a severe cold, my throat and lungs were badly inflamed, and I had a terrible cough. Planting the Standard

All hail Columbus! Behold the great navigator as he lands. The perils of the deep are past. The clouds of fear have vanished. The night of gloom has ended. In the heavens the sun of success shines resplendent. Morning has dawned.

Imperiously the banner of haughty Spain greets the day light. Upon its fluttering folds are inscribed the destinies of a new world. Its gleaming surface marks a long advance in the evolution of the human race. It tells a story of prophecy unparalleled, of developement unapproached in the fullness of recorded time. It crowns with triumph the efforts of genius.

The World's Fair contained no finer statue of the great discoverer than this colossal figure. It commanded from its pedestal the eastern entrance to the Administration building. The majesty of its dimensions, the vigor and aggressiveness of its expression and the artistic finish of its composition made it admired as a genuine sculptural triumph.
