

HILLSBORO INDEPENDENT.

FRIDAY, JULY 26.

For sale—Shoats and pigs, by J. S. Griffin, Hillsboro.
Lost—D or and postoffice keys, on a ring. Will the finder leave at this office.

J. L. Knight is always prepared for all kinds of manual work, especially collecting.

Attorney L. K. Adams and C. E. Ruyter and son started yesterday for the Lewis heights of Mount Rainier, Washington.

Lost—One black and white Holstein cow, with a strap around neck and tag with No. 41, in right ear. Information left at this office will be thankfully received.

The Southern Pacific wood preserving works have finished what was to be done at Cornelius, and have been taken to a station on the east side of the river.

Messrs. Brock & Mitchell have about completed arrangements for instituting a telephone system for Hillsboro. They will soon commence stringing wire.

It is estimated that the farmers trading in Hillsboro have already bought twelve tons of binding twine. These students of economy have not been slow in finding where they can buy cheapest.

The telegraph office, that has for more than twenty years been maintained at Cornelius, has been removed to the Hillsboro station. Our business men can now send and receive messages without the bother heretofore experienced.

Hon. J. H. Lawrey Dist. Attorney for the 6th District, Pendleton, was in town on Wednesday. Mr. Lawrey over to Newport with the press association and on his return stopped in the principal towns to visit and become acquainted with the Country and people.

Mr. John Ring's announcement appears in another column, and any one having brick work to be done cannot do better than to employ Mr. Ring. He is particularly skillful in setting steam boilers and building furnaces. He is an old resident of the county, having lived in the eastern end for many years.

Mr. Charles Anderson, who left Oregon a few months ago to visit friends and relatives further East, returned a few days ago. However, his stay was a short one, but he has gone again—report says, to get his "girl left behind." While absent last winter Mr. Anderson called at Sprague, and Spokane, Wash., but made the longest call at Shulista, Sweden, his boyhood home.

The national archery tournament will be held this year at Dayton, O., August 19th, 20th and 21st. The Oregon members of the club will not be able to go so far, but they will shoot with the same zeal at home. On those dates Dr. Henry E. Jones, of Portland, will meet with Mr. F. S. Barnes at the latter's house in Forest Grove, where they will shoot and forward their scores to the Dayton, O., judges.

An interest in church matters has been aroused in Scoggin valley during the spring and summer that is quite cheering to the Christians of that beautiful vale. The Presbyterian people have been active and have organized a society which has had about twenty five accessions within the past three months. Money to build a church in the valley has been pledged, and the building committee will build a house of worship this fall costing about \$1,000. It will be ready for occupancy before the rains this fall.

One Forest Grove firm dealing in harvesting goods reports that six tons of binding twine have already been sold this season. Last year the same firm sold ten tons, but this large sale early in the season indicates that more string will be used in 1895 than was wrapped around bundles in 1894. Since it requires about 14 pounds of twine per acre, the six tons sold indicates that 6500 acres are provided for. But there is more ground to be covered and this little calculation only shows how big a thing a twine traw is may become.

Austin Craig, of the "Hatcher," and Rev. A. Rogers were welcome callers this week. They reported that their town, Forest Grove, is much agitated over the water question. A water sharp has been out on Galas Creek and reports that the supply is enough for a city of 10,000 inhabitants, while one of the old residents on the stream says he has seen the water so thin that it would run through a two inch pipe. And there you are. Certain it is, if Forest Grove ever expects to put in a gravity system of water works, a proprietary right to water will have to be acquired soon.

The West has always been credited with what is called in manners and in manners, in manners, and while "West" may have at one time included the whole of the Mississippi states, latterly the term was attached to those commonwealths westward from Kansas and Nebraska, that a late advice accompanying a money order received by Postmaster Brown, shows that Iowa was taken from the list too soon. This advice directs the postmaster at Hillsboro to pay to the party named "five bacon dollars." John claims to be well up in the currency of the nation, but bacon dollars are new to him.

By great presence of mind, Mrs. W. N. Barrett prevented a destructive fire, and the loss of her home, in a fire, by this prompt and judicious proceedings the dangerous flames were soon controlled, but not before Mrs. B. had been scorched about the face and nose burned on the wrist of the right hand. The damage was small, not amounting to fifty dollars.

Julius Miller, "Cullo," confined on charge of larceny, and William Hein, held to answer for rape, succeeded in building bail last Monday evening about 8 o'clock, but it was not approved by the court and Jailer Bradford wants them again. They got out this way. The jail is a wooden building of frail construction, but having iron cages for the safe keeping of great criminals and all inmates during the night time. During the day times the petty criminals are allowed in a corridor. The jail on Monday evening stepped across the street before taking his bed, but when he got back they were gone, however, a section of the floor under the stairs through which they crawled. Once under the house it was not a difficult thing for them to get on the street. Once there, they have shown how good their bail bonds are. It is said that Miller visited his wife on Wednesday morning. Further than that rumor, nothing has been heard of the pair.

Wonder if he will soon hear the last of it. This is how the Sheridan Sun-Guide's paper—treats an incident that is coming to have a blunt point: "Representative H. V. Gates, of Hillsboro, was held up by the lone highwayman on the Agers-Klamath stage last week. When the highwayman told Gates to hold up his hands, the Hillsboro soldier raised those members up until they looked like lamp posts, and promptly shouted: 'Aye!' Gates thought he was voting on a suspension of the rules, but the robber insisted that the bill on the final passage of a bill that carried an appropriation, and obliged him to puntle \$1.50, which was all he had saved after paying his board bill at the legislature in Salem."

The meaning of the instinet possessed by migratory birds is disclosed to the human species, and man is made to realize its power again through the months of July and August. No sooner has the season arrived than an almost uncontrollable desire takes possession of the people to get away for a few weeks' recreation by the sea or in the mountains. There seems to be no reason for the going. The time comes, and whether debilitated or in robust health, all go who can get away from home, even if it is but for a few days. The season is now on, and not a day comes but excursions, with camp equipage or bathing suit, obey the inward impulse and hie away to mountain or beach for the rest which invigorates.

The residence of N. C. Richardson, in South Tualatin precinct, about three miles south of town, caught fire Tuesday noon and was burned to the ground. Nothing was saved from the house. Mrs. Richardson, who is quite aged, and somewhat deaf, was preparing dinner. Going out the porch, she noticed smoke issuing through the floor. At the same time she heard a roaring over head, and on looking up saw that the whole roof was enveloped in flames. Her husband has been made to attempt to extinguish the fire. Indeed, she could do little else than herself flee. The loss is \$1,500, with \$750 insurance.

When Deputy Sheriff Geo. Bagley went out to arrest Kellher he was asked to notice if he had a watch and ring on his person. At the time, Bagley thought the watch and ring would be means of identification. He did not know that those were the articles that had been stolen. Afterward he went to Buxton and made a thorough search, but could find nothing. Not being successful that way, he offered a reward of five dollars. The watch was soon afterward found and put into the hands of the officers. This will probably be the bit of evidence that will send the housebreaker to Salem.

At the recruiting station last Saturday evening, about twenty-five veterans appeared and signed the muster roll for a G. A. R. post. Since then enough names have been added to swell the list to thirty. Before they are mustered in, it is desired that there be forty names on the list. It is the wish to enroll all veterans in this new post who by reason of location do not belong to Beaverton or Forest Grove. The fee is a half dollar per member. Another meeting will be held next Saturday evening at Grange Hall, though it may be a month before the post is finally instituted.

Dr. Tamsie, assisted by Dr. Wood, yesterday performed a surgical operation on little Dan, son of Mrs. Tiffany, of this place, for the purpose of straightening the little fellow's leg. The little was bent so that he walked on the side of his foot, and was becoming worse as he grew older. He stood the operation heroically, and it is hoped that a speedy recovery will follow.

Of those who are off to the beach or to the mountains may be mentioned John Dennis and wife, G. A. Wehrung and wife, J. B. Vroman and wife, H. Wehrung and wife, M. B. Emerick and family, Mrs. M. Pittenger, Miss Minnie, Mrs. Dr. A. B. Bailey, D. W. Robbins, Dr. F. J. Bailey, Jno. Scoggin, E. D. Thorn and A. C. Shute. More are going next week.

Captain George Ainsworth, of the Ainsworth National Bank, Portland, is at the Ross farm, north of Hillsboro, for the purpose of recruiting his health. He comes out that he may be under the professional care of Dr. Linklater.

Beside the careful compounding of prescriptions, Mr. Byrne, manager of the Delta drugstore, gives special attention to new attractions. New things are arriving daily. A late attraction is a large invoice of popular sheet music.

Mr. R. H. Greer has bought the J. T. Gibson property at the corner of First and Washington streets, and is remodeling so that when it is finished, he will have one of the most substantial residences in the city.

G. W. Adkins, of Benton county, an uncle to our Dr. Adkins, is visiting with his nephew this week. The gentlemen had not met for fifteen years before.

The annual address of J. R. Beagle, president of the state press association, is every when spoken of in terms of highest praise.

Mr. Schlaach, at interim editor of the Forest Grove Times, was in Hillsboro a few hours on Tuesday afternoon.

M. H. Parker has been appointed postmaster at Greenvale.

J. L. Knight has money to loan, and buy notes.

OREGON WEATHER REPORT.

Weather—Compared with the usual conditions at this time in the season, the temperature on each of the past seven days was much cooler than the average; compared with the previous week, it was decidedly cooler. Chilly weather with much cooler prevailing in the coast counties and in Columbia, Yamhill, Washington, Multnomah and Clackamas counties of the Willamette valley. In the other sections of Western Oregon there was more sun-shine, though the weather also remains cool. On Thursday some light scattering showers occurred over the north-western portions of the state, with the exception, there was an absence of precipitation.
