OFFICIAL PAPER OF THE CITY

FRIDAY, AUGUST 30.

The Knights of Labor, expecting the support of all labor organizations, populists and free silver men, will, after September 21, refuse to take national bank notes in payment of debts due them.

There must have been something radically wrong in the management of the Portland Hospital, and Dr. Holmes must have had grounds for his complaints, since the board of trustees has made a complete change, dismissing all regular physicians, and substituting homeopathic surgeons and doctors.

There has been a doubt in the minds of some of us younger fry, touching the soundness of our father's judgment in the 50's, when they passed Burnt River, Powder river and Grande Ronde, and came that last weary 300 miles to the Willamette valley.

The first number of the Pacific Empire has been received. It is published by F. E. Gottshall, at Portland, and edited by Mrs. Abigail Scott Duniway.

A new train on the London and Southwestern Railroad recently ran from London to Aberdeen, 540 miles, in two minutes less than nine hours, or at an average rate of a little over sixty miles an hour.

New uses for old material developed daily and maintains the value of the old element. Just as electricity is about to displace petroleum, that slick stuff slips into an engine used to propel pleasure carriages on the highway.

Frequent paragraphs have been written about the Waller case. Waller is an American citizen who was sentenced to twenty-five years imprisonment by a French court-martial, after a trial lasting twenty-five minutes.

QUAY IN PENNSYLVANIA.

Democrats have not been as happy since November 6, 1892, as they were on Tuesday and Wednesday of this week. The glorification is over the bickering at the republican state convention in Pennsylvania.

At this distance, it is somewhat difficult to get a clear understanding of the situation. Quay is charged with being a boss, and the terms employed, without saying so in direct words, convey the idea that he is a corrupt boss.

This resolution is either the product of a pure mind, or the vapors of a demagogue, and the INDEPENDENT must claim that no American politician has yet descended to the depths indicated by the latter supposition.

Resolved, That we deprecate the growing use of money in politics, and the corporate control of legislatures, municipalities, counties, political primaries and elections, and favor the enactment of legislation and the enforcement of laws to correct such abuses.

Some years ago, by a special act of congress, an American company was permitted to buy two ocean greyhounds and decorate them with the stars and stripes, conditioned, however, that two more fast ships should be built in American ship-yards.

It has been said that Quay is not of sound financial views, but the adoption of so satisfactory a resolution as that in the nation platform by a convention acknowledged to be guided by him would seem to be a complete refutation of the charge.

Some years ago, by a special act of congress, an American company was permitted to buy two ocean greyhounds and decorate them with the stars and stripes, conditioned, however, that two more fast ships should be built in American ship-yards.

Some three weeks ago there was a sharp advance of the price of wheat in Chicago, and sanguine holders saw a greater figure and an active fall trade. The INDEPENDENT could not see the rose colors and stated that the increase of price was the work of the bulls, and being due to gamblers' operations were deceptive.

the Liverpool advices, which recite:

"Wheat—Spot, easy; demand poor; No. 2 red winter, 5s 1d; No. 2 red spring, 5s 3d; No. 1 hard Manitoba, 5s 4d; No. 1 California, 5s 1d.

It was only a few days since the Liverpool prices were 5s 6d. The Portland market sympathizes with the other centers. The Oregonian has this paragraph:

"The local wheat market is weak and rather dull, yet for the time of year offerings are very heavy. New wheat is arriving freely. Export values are as follows: Walla-Walla, 45c; Valley, 48c per bushel.

THE POWER OF PERFORMS OVER DISEASE GERMS.

It has been an orthodox act of late years to ridicule the old-fashioned housewife for hanging about the neck of her offspring, camphor and assafetida sacks to ward off the attacks of contagious diseases.

THE FROZEN MILK INDUSTRY.

Canada's representative in Denmark reports that during the past year a new industry has been established there which promises to prove both profitable and serviceable, and which might be followed with equal success on this side of the water.

When the milk is received from the farmers it is pasteurized, that is, heated to 75° C., and then immediately cooled off to about 10° C., and now the freezing is commenced. Half the milk is filled into cans and placed in a freezing apparatus, where it will be thoroughly frozen in the course of three hours.

Highest of all in Leavening Power.—Latest U.S. Gov't Report

When a Spaniard wants to call a man greedy and a hard creditor, his epithet is "Englishman." The little diplomatic flirtation now going on between Spain and England is inspired by policy on both sides.

Without investigating the hindrances, it would seem that in this country milk ought to be readily and easily frozen without the intervention of the ice and salt mixture, by a simple modification of our common ice machine.

THE CAMPAIGN IN KENTUCKY.

Bradley, the republican candidate, has clearly the advantage over Hardin, the democrat, in the Kentucky contest. Hardin's chances are weakened by the fact that on the vital issue of the day, the monetary question, he is fighting for a lost cause and belongs to a beaten and discredited faction.
