Mr. J. Messinger and Mr. Larsen, of Laurel, are sorely afflicted by illness, and it is feared that they will not survive. In the Larsen family, Dr. Tamsieie has three typhoid fever patients, and five in the Messinger family. The attending physician traces this epidemic to the water used by both families, which is from the same fountain. The Larsens have used water from a spring which receives seepage from a side-hill on which stock is allowed to pasture. Water from this spring is taken in an open ditch along the side-hill to Messinger's, who use it for culinary purposes.

The S. P. Co's safe, at the railroad station, was blown open Wednesday night, and rifled of the small sum of change kept on hand. The station is about a quarter of a mile from the business center of town and somewhat isolated, though there are many dwellings within a block. The police were not disturbed, though several claim to have heard the report of the explosion some time after midnight. A watch dog at a residence near by was uneasy about that time of night, and doubtless, in his waywardness, he made known the robbery then in progress. Entrance to the station was effected through the west window of the waiting-room. The door between the waiting-room and the agent's office was locked with a spring lock. The bolt of this fastening was broken. The safe in the office is a Hall fire proof. A quarter-inch hole was drilled just below the knob which throws the bolts. The explosive was then placed where it was to do its work. It was fired with common blasting fuse, a stub of which was found on the floor. A trace and chisel, taken from Benson's machine shop, were the tools used. They were left on the floor, as was also the burglar's dark lantern, which was a gallon syrup can with a square hole cut in one side. The burglar had cut in the door was from the shell of the door, which exposed the bolts and made the entrance easy. About \$40 in coin was taken and some private papers, among which was a certificate of deposit issued by the First National Bank of Hillsboro.

The Hillsboro Republican Club held a business meeting last Tuesday evening, which was well attended. Reports of officers were read, which showed the business interests of the club to be in excellent condition. Dr. Wood, from the soliciting committee, reported and read the names of thirty new members who had signed the pledge since the last meeting of the club, in January. He further reported that it is much easier to get members now than it was last year, or ever before; that no arguments were necessary. An opportunity to enroll was the only thing required. The officers elected for the ensuing campaign are: President, Geo. W. Patterson; first vice-president, C. E. Deichman; second, L. K. Adams; third, R. H. Greer; secretary, Benton Bowman. The chair appointed the standing committee, to-wit: Executive committee, D. M. C. Grant, H. E. Cornelius, R. E. Bryan; finance committee, J. J. Morgan, who is ex-officio treasurer of the club, J. H. Stanley, W. V. Wiley, John Northrup and N. A. Barrett; soliciting committee, H. P. Ford, E. J. Lyon, Geo. R. Bagley, W. D. Wood, E. M. Kelsey; committee on reports, J. D. Herryman, J. P. Tamsieie, W. W. Annas, Wm. Barrett and C. Jack, Jr.; committee on music, J. H. Stanley, Frank Williams and Benton Bowman. At the conclusion of the business, Hon. T. H. Tongue called, and made a few words of encouragement and a promise to make more extended remarks at a later meeting of the club. Judge Cornelius spoke of the duties resting upon the club and its members, individually, at this time. Hon. C. P. Yates, of Mountaineer, being in the hall, was called. He responded in the longest speech of the evening. He was historical, and presented matters that were timely. The club showed its appreciation by great applause and cheers. The club adjourned, to meet two weeks hence.

The report comes from the neighborhood of Laurel, that several of the hop fields will be pastured with sheep. It is further learned that Mr. William Connel, just north of town, will plow up his hop field, which was planted out last year, and sow it to wheat. He elects to do this rather than spend two or three thousand dollars this year in new buildings, which he would have to do if he cultivated his forty acres, which he now has in young vines.

The old shop on Main street, near Third, occupied by Mr. Landrock, for a shoe shop, was razed to the ground yesterday, preparatory to moving a better building to the same ground. Workmen were tearing off the roof, when it seemed a little shaky. They descended and pushed slightly on the walls, when the whole structure collapsed. The building originally stood on the spot now occupied by E. Cave's hardware store, and was built in 1857 by Sloan & Pickett, for a bowling alley.

SWAMP LAND APPROPRIATIONS.

MIDDLETON, OR., Feb. 18, 1896. EDITOR INDEPENDENT: A Salem correspondent of the Oregonian, in the issue of the 14th inst., after referring to the fact that certain parties were asking for a return of the 20 per cent paid on swamp lands, takes occasion to state that the legislatures of 1878 and 1890 made large appropriations from the swamp land fund for construction of wagon roads, etc. The correspondent referred to is either misrepresenting, or he is not conversant with legislative history of this state. The legislature of 1878 provided for the location, segregation and listing to the state the swamp and overflowed land that might be within its borders, which would accrete to the state under acts of congress; a thing which up to that time had been neglected. In pursuance of this, the legislature of 1880 made an appropriation of, I think, about \$5,000, to pay expenses of the locating

commission, agents to select, and attorney at Washington to attend to the interests of the state in the matter of swamp lands. Again, in 1882, an appropriation of about \$5,000 for similar purpose. These appropriations were regarded as necessary to secure to the state large areas of land which, under acts of congress, would properly belong to her, and which it was supposed, under proper management, would be of immense value to the state.

These appropriations were not from the swamp land fund, but from the general fund and in the general appropriation bill. No appropriations were made by either of those sessions without providing some direct means of payment. A close study of the records of those sessions of the legislature will convince the most skeptical that in the line of unnecessary appropriations and expenditures, they were very careful. Six thousand dollars for clerk hire in comparison with \$26,000 at subsequent sessions is a fair sample.

Whatever may have been their shortcoming, they were certainly watchful of the treasury. They lowered the state debt from \$700,000 to less than half that amount and at the same time built the Oregon insane asylum and made many other substantial improvements. The lavish, and, to my mind, in many instances, injudicious appropriations, commenced in 1884 and have been growing from that time to the present. You, Mr. Editor, were a member a portion of the time to which I refer, and will bear me out in saying that in the heat of one of the hottest senatorial fights that was ever waged in Oregon, and which lasted during the entire session, we never "lost our heads" sufficiently to do very much that we have had to apologize for since.

Please excuse me if I have trespassed upon your space and patience, and my only excuse is that while I never shirk responsibility, I do not like to see blame rest where it does not belong. Respectfully, R. H. TYSON.
