The mystery surrounding the disappearance of Courtney Meek has been cleared. His much decomposed body was found on Monday last floating in the Willamette river near Burnside bridge Portland. There was no mark of violence on the corpse. His watch and some $30 in money was found in his clothes. These things make it almost certain that it is a case of accidental drowning. He had been traced to about 9 o'clock of the evening of his disappearance. Doubtless he walked toward the river and in the darkness steppted off the dock into deep water.

Wednesday last little Lester True the six-year-old son of Drucy True, widow, had his life crushed out by the cruel wheels of a flat car. Mrs. True lives at Cornelius and teaches in the public school there. Lester had been at school but about the noon hour he was out by the side tracks. With a pinch bar he started a car as he had seen the men do, and run in front to stop it, but he was too small. He fell on the track, and the car passed diagonally over the body. His mother, going home, saw the thing She ran in a freightened way and asked, "Lester, are you hurt?" "Yes." That was all. The lad was dead before he could be carried to his home, which was near by. Lester was the only child, and the light of the widow's home. Mr. Keniston kindly tells the above facts to the INDEPENDENT.

A very sad accident happened Monday evening last near the Rock Creek school house in the neighborhood of Bethany, by which Miss Anna Schlueter aged 16 years, of West Union, was thrown from her driving cart and killed. Anna accompanied by her friend Miss Anna Hansen had been calling at her sisters and were on their return home. At about 6.30 p. m. they passed the residence of Mr. E. J. Kuratli, driving on a trot. While yet in sight of Mr. Kuratli's one wheel dropped into a deep rut. The rebound of the cart so jostled the girls that the reins dropped from their hands as they grasped the dashboard to hold their seat. The horse thus released went faster till one cart wheel went over a stump partly burned out, when the girls were violently thrown out. Anna Schlueter struck a vertical board fence dropping down limp and unconscious. Mr. E. J. Kuratli was first at the scene and tenderly raised the crushed girl and carried her to his residence where she was seen by Dr. Tamiesie as soon as horses could get him there, but the poor girl was too badly hurt to be revived. She died about 11 o'clock on the same evening of the accident. She was buried on Wednesday at West Union cemetary. Miss Hansen, her companion was badly frightened though not seriously hurt. Anna Schlueter was a lovable girl and will be sadly missed by her family and friends.

No society has been organized in Hillsboro in recent years that has shown better right to public recognization and esteem than Gen. Ransome post No. 69, G. A. R. Heretofore there has not been wanting those who desired to have Decoration day properly observed in Hillsboro, yet none came forward to assume the management of the matter. All this has been remedied by the organization of the post. Last week the committees of the G. A. R., Relief Corps and Sons of Veterans took the matter in hand so that they were able to have such a general recognition of Decoration day as is befitting to every community. In the forenoon the programme was for the school children and their friends at the cemetery. For the success of this, great credit is due to Mrs. Pittenger and Mrs. Elliott. In the afternoon the citizens were gathered in the court house auditory, where the literary exercises of the G. A. R. proper were given. Capt. Cline, of the M. E. church, pronounced the oration, which was equal to his excellent sermon of the preceding Sunday. Till late in the afternoon all the business houses were closed, and a Sunday holiday air was on the city. There may in the future be Decoration days as appropriately observed, but the completeness of general conception and detail cannot be surpassed.

The Northwestern Normal School, Portland, held its first session last year at Portland, and was popular from the day of its opening to its close six weeks later. Not only popular but profitable. The school will again open for studies on Monday the 22nd inst. under the management of the same corps of teachers. Young people who want to be brightened professionally and have not the time for a full course at the state school cannot do better than enter the Northwestern. The announcement is in another column.

The Forest Grove Choral Union which has in the past given so many enjoyable entertainments, will on the 17th of June in the auditory of Marsh Hall give its 5th annual Commencement concert. The selection this year is Gaul's Cantata "The Holy City." The leading parts will be taken by Mrs. E. E. Coursen, soprano; Mrs. Walter Reed, contralto; H. W. Boyer, tenor and Dr. Chas. S. Archer, bass, a quartet of Portland's most popular vocalists. Admission 35 cents; reserved seats 50 cent.

Wednesday the eldest son of Wm. Chalmers was going from his home to Cornelius on horseback. The animal stumbled, fell and rolled over on the rider. The boy suffered a painful dislocation of the right ankle joint and a fracture of one bone in the same leg near the ankle. Dr. F. A. Bailey, who attended the injured boy, found several other bruises about the head, though they are considered minor compared to the first mentioned.

Miss Ella Lichty who is well known in the city was stricken with pneumonia the last of last week at her mother's home, four miles east of town. The sickness was acute and fatally ended yesterday morning. The remains will be buried at West Union Cemetery, tomorrow, Saturday, the funeral cortege leaving the family residence at 1 o'clock p. m.

Postmaster Schulmerich assumed his post in the Hillsboro office on Monday last, June 1st. At first he grzed about in a sort of dazed manner, but he is getting his bearings, and will soon be familiar with the duties of the place.

WEEKLY CLIMATE AND CROP BULLETIN.

WESTERN OREGON.

Weather—The past week has been the first week this season without any rainfall, i. e. there was no general rainfall. On Friday, the 29th of May, good showers fell in Josephine county, resultant from a thunder storm which moved into eastern Oregon Friday night. Accompanying the absence of rainfall were warm days and nights and plenty of sunshine. The temperature averaged 5 degrees warmer than in the preceding week; the day temperature averaged 72 degrees and the night 51 degrees, both being normal May temperature. The maximum for the week was 92 degrees on the 28th and and 29th, the minimum 46 degrees.

Crop—The weather has been most favorable to farm work and vegetation. The growth of all things has been healthy and rapid. Late seeding has been pushed with vigor. Considerable oats is being sown, it being intended for hay. Late gardens are now about all planted. The weather conditions while favorable to growth were also favorable to the drying out of the soil, which in places was needed. Wheat has made an excellent growth. The long period of rain did no damage to the wheat crop. Spring grain has a good stand and is as well rooted as fall wheat. Previous to the fair weather much of the wheat was yellow, but it has revived and is a perfect green. All correspondents note the wonderful growth and improvement in the wheat crop. The same may be said of the oats, except that sown lately, and of the other grains. Much of the land that had been prepared for wheat, and which could not then be so sown, has been seeded in oats. Some correspondents report that oat seeding will continue until June 15. Rye that was sown in September is now ready in the southern counties to be cut for hay. Red clover is in places 28 inches high, the rainy weather having been temperate to it. Haying will begin this week, especially in the southern counties. In Jackson and Josephine counties alfalfa will be cut this week, for the first crop. The rainy weather has made all hay very heavy in growth and should favorable weather prevail the crop will be well harvested. Hops have made growth of from 2 to 4 feet during the past seven days. The hops have been most favorably effected by the dry weather and sunshine. Hop yards are now being worked and the vines are spreading out on the poles and wires.

The current conditions are most favorable to grains and grasses.

Fruits—There can now be no denying the fact that the frosts of the first part of April and the cool rains have injured most varieties of fruits. Of the prunes, the Italian appears to to be the must seriously injured. One correspondent reports that in his 40 acre prune orchard there is not a bushel of fruit. Some orchards will have a fair crop, while others will have no crop at all. The current season is a phenomenal one, for it is a very rare occurence that fruit is injured by the weather in Oregon. The peaches and apricots have been more damaged than the prunes. The pears have been hurt, but yet not so very radically in some sections the trees are fairly filled with fruit. The apples are also affected and this is a most unusual thing in Oregon. The cherry crop has been injured in some localities, while in others the trees are fairly well filled. The cherries are growing rapidly and will begin to ripen in the next two weeks. In 1895 cherries were ripening on June 1st, and on June 5th ripe Oregon cherries were in the market. All the fruit has been injured by the weather yet it must not be understood that this means a failure in the crop. There will be no marked yield in any hill fruit, yet there will be fruits of all kinds and to spare. The small fruits and berries have not been damaged. Grapes have been backward, but are now growing rapidly. Some vines have made six inches growth during the past week. Strawberries are ripening rapidly, and before the close of the second week Oregon berries will be plentiful. Raspberries, strawberries and gooseberries are as usual, most prolific.

While a favorable change in the weather is noted, the conditions are not such as to indicate settled fair weather, and it need occasion no surprise should general rain occur before the end of the week. The summer type of weather conditions has as yet not appeared and until it does, settled fair weather cannot be expected.

EASTERN OREGON.

Weather—The temperature has made a material rise during the past week. In the Columbia river valley the mean temperature for the week has been 7 degrees higher than in the preceding week, while to the east and south of the blue mountains the mean temperature rose 12 degrees. The day temperature in the valley averaged 77 degrees, the night 52 degress; south of the blue mountains the temperature averaged 72 degrees and the night 47 degrees. The highest temperature during the week was 84 degrees, on the 29th, and 42 was the lowest. A sprinkle of rain occurred in the northeastern portion of the district on the 26th and 27th. General rain, from thunder storms, occurred south and east of the Blue mountains on Friday night and Saturday morning, and on Sunday night similar rains occurred. The duration of the rainfall was brief, and the sunshine was about normal.

Crop—The continued fair weather has produced wonders in its effect upon the vegetable growth. Wheat is making a rapid and healthy growth; winter wheat in the Columbia river valley is heading, and is in places 30 inches high; in the Grand Ronde valley the growth is slower, yet it is good and free from injury. The soil is in excellent condition, and more rainfall will not be needed for several weeks to come. Some early spring-sown grain is in its first joint. Correspondents report the grain entirely free from any evidence of insects or disease. In the early part of the season grain made little growth, but it rooted and stooled well; within the past ten days the warm sunshine has made most encouraging prospects, and the outlook is flattering. Rye will begin heading before the close of the current week. Oats have a good growth. The corn is coming up and has a good growth and very healthy appearance. All correspondents are very much pleased with the excellent grain and hay prospects.

Fruit—The fruit in the Columbia river valley has been somewhat injuriously affected, though not so much so as in eastern Oregon. Very fair yields of all fruits are promised in the valley. To the south and east of the Blue mountains the fruit trees are fast coming into bloom, and in this section the weather has done no injury. The first crate of strawberries was shipped from Hood river on May 25th, since when the berries have ripened rapidly, and large shipments are being made. The small fruits and berries are most promising.

Taken as a whole, eastern Oregon will have a more prosperous fruit year than will western Oregon have, while the grain crop over the entire state was never more promising. Should the weather for the next six weeks be free from the dry east wind the grain crop will be perfect.

The weather conditions have not yet assumed a settled state; hence showers may be expected.

Mr. Pague returned to his office from his inspection trip on May 28, and assumed charge.

HAVE YOU USED BUTTER PARCHMENT?

... All gilt-edged butter put on the market by creameries is wrapped in paper. The product of the private dairy would reach its market in much better condition if wrapped in Butter Parchment than it does when wrapped in cloth. Parchment is not only better than cloth, but cheaper. Cloth sells at 6 cents per yard, from which 27 sheets can be cut—27 Parchment wrappers cost 3½ cents.

500 Sheets, 8x11, - 55 cts
500 Sheets, 8x13, - 60 cts

The standard size for 2-pound rolls is 8x11 inches; 2-pound blocks are wrapped in the 8x13 size. One reason why paper has not been generally used heretofore, farmers could not get it at the general store. It is now kept at the Independent office cut to any size wanted.

DEATH TO FRUIT PESTS.

To make the Orchard pay you must spray, winter and summer, with Prof. Brown's Insect Exterminator. The only Insecticide known that will kill all Insect life without injury to Tree, Fruit or Foliage.

Endorsed by the individual members of the State Board of Horticulture of California, Oregon and Washington. Used by many Nurserymen and Orchardists. My winter wash is the only solution that will kill the woolly Aphis, (use only while the foliage is off.) My summer wash is a sure destroyer of the codling Moth Egge, and all insects except Woolly Aphis, (use just after the blossoms fall off.) My Hop Louse wash kills all insects that infest vines, vegetables or plants.

The ingredients used in my formulas can be found in any drug store, costs much less than other washes. (Full and explicit directions for mixing and using.)

Knowing I have a sure remedy, some unprincipled parties are now selling imitations. Therefore, to discourage all such parties I have concluded (for a short time only,) to reduce the price of the three formulas to $2.50 by mail to any address. Formulas Copyrighted, January 14, 1890.
